Specifications

About this product

The Logitech H340 USB Headset with Noise Cancelling Mic delivers clear digital stereo audio for voice calls, online meetings, webinars, music, and multimedia. Featuring a USB-A plug-and-play connection, a bi-directional noise cancelling microphone, and a lightweight adjustable headband, it provides reliable everyday communication on Windows, macOS, and ChromeOS computers. Buy this Logitech H340 USB headset online today for quick delivery in South Africa.

Overview Summary

Logitech H340 USB Stereo Headset with Noise Cancelling Microphone

The Logitech H340 is a wired USB headset designed for everyday communication and digital audio. Its simple USB-A plug-and-play connection allows quick setup without additional software, making it suitable for home, office, education, and remote working environments. The lightweight design and foam ear cushions provide lasting comfort during extended use.

The bi-directional noise cancelling microphone helps reduce unwanted background noise for clearer conversations during video conferencing, VoIP calls, webinars, and online learning. Stereo speakers deliver clear digital sound for voice, music, videos, and multimedia applications while the adjustable microphone boom can be positioned for optimal voice pickup.

Performance tier: Entry-level business and communication headset

Uses: Video conferencing, VoIP calls, Microsoft Teams, Zoom meetings, webinars, online learning, office work, music, multimedia

Description

The Logitech H340 USB Headset is designed for users who need dependable digital audio for everyday communication. Its USB-A interface offers true plug-and-play functionality, allowing the headset to be connected quickly to compatible Windows, macOS, and ChromeOS systems without additional drivers.

The lightweight over-the-head design features an adjustable headband and soft foam ear cushions for comfortable use during long meetings or training sessions. The right-side microphone boom can be adjusted for improved voice pickup and folded into the headband when not required.

Digital stereo speakers reproduce clear voice and multimedia audio, making the headset suitable for video conferencing, webinars, online classes, customer support, internet calling, and general entertainment. The 1.8 m cable provides freedom of movement while remaining connected to your computer.

FAQ

What is the Logitech H340 USB headset used for?

The Logitech H340 is designed for video conferencing, VoIP calling, webinars, online learning, office communication, and everyday multimedia listening.

Does the Logitech H340 have a noise cancelling microphone?

Yes. It features a bi-directional noise cancelling microphone that helps reduce background noise during voice calls.

Does this headset require software installation?

No. The headset uses a USB-A plug-and-play connection and works without additional software on supported operating systems.

Which operating systems are supported?

The headset supports Windows, macOS, and ChromeOS computers with a USB-A port or compatible adapter.

Can I use the Logitech H340 for Zoom and Microsoft Teams?

Yes. It works with common communication and conferencing applications including Zoom, Microsoft Teams, Skype, webinars, and other VoIP platforms.

Is the microphone adjustable?

Yes. The microphone boom can be positioned for better voice pickup and folded into the headband when not in use.
