Buy now from our website for reliable everyday communication and entertainment in South Africa.

Overview Summary

Logitech H151 Analog Stereo Headset with 3.5 mm Jack

The Logitech H151 is a comfortable wired stereo headset designed for everyday communication and multimedia use. Its single 3.5 mm connector allows quick connection to compatible laptops, desktops, tablets and smartphones without requiring additional software or drivers.

The adjustable over-the-head design, soft ear cushions and rotating bi-directional microphone provide comfort during extended use. Convenient in-line controls allow fast volume adjustment and microphone muting while the noise-reducing microphone helps improve voice clarity during calls and online meetings.

Performance tier:Entry-level everyday communications

Uses:Voice calls, Microsoft Teams meetings, Zoom meetings, online learning, remote work, music listening, video calls, multimedia, casual gaming

Overview

Just plug your H151 Stereo Headset into the 3.5mm port on your computer, tablet or smartphone and its ready to go. In-line controls let you control volume or mute calls without disruption.

Description

The Logitech H151 Analog Stereo Headset is designed for users who need dependable audio performance for work, education and personal communication. Its universal 3.5 mm connector makes it compatible with many computers, laptops, tablets and smartphones that support a combined audio jack.

The lightweight adjustable headband and soft foam ear cushions provide lasting comfort throughout long conference calls, online classes and multimedia sessions. The rotating boom microphone can be positioned on either the left or right side and moved away when not in use.

Convenient in-line controls allow users to quickly adjust the listening volume or mute the microphone without interrupting their workflow. The stereo speakers provide clear sound for voice, music and video playback, making the headset suitable for home offices, classrooms and everyday entertainment.

Features

The Logitech H151 combines comfort, compatibility and simple controls for daily communication.

- Universal single 3.5 mm audio connection
- Clear stereo audio for calls, music and multimedia
- Bi-directional rotating boom microphone
- Noise-reducing microphone design

- Adjustable lightweight headband
- Soft foam ear cushions for extended comfort
- Compatible with Windows, macOS, ChromeOS, Linux, tablets and smartphones with a compatible 3.5 mm jack
- 1.8 m cable for flexible positioning

EASY-TO-USE HEADSET THAT SOUNDS GREAT ON ALL YOUR DEVICES

ComX Computers

Product Specification Sheet

Essential stereo headset works on all operating systems and platforms via the standard 3.5mm audio jack connection. Just plug your headset into the 3.5mm port on your computer, tablet or smartphone and its ready to go. In-line controls let you control volume or mute calls without disruption. Convenient noise-cancelling microphone reduces background noise.

STEREO SOUND

Full stereo sound for crisp, clear voice and video calls, music, games and more. An essential stereo headset for either personal use or the office.

ROTATING MICROPHONE

Boom can rotate 180degrees to be worn on the left or right. Flexible mic can be positioned for better voice capture and background noise reduction. Boom can be tucked out of the way when youre not using it.

IN-LINE CONTROLS

Convenient in-line controls on the headset cord let you adjust the volume or mute calls without disruption.

ADJUSTABLE HEADBAND

Sturdy yet lightweight stereo headset has a broad range of adjustment. Ultra-soft foam ear cushions provide hours of comfort.

3.5MM AUDIO JACK CONNECTION

Simply plug the 3.5mm audio jack into your computer, smartphone or tablet and youre ready to talk.
