Specifications

About this product

The Logitech H390 USB Computer Headset (981-000406) is a wired stereo headset designed for clear online meetings, video calls, remote work, online learning and everyday audio. It features 30 mm audio drivers, a noise-cancelling microphone with a rotating boom, an adjustable headband and comfortable leatherette ear cushions. The plug-and-play USB-A connection and convenient in-line volume and mute controls make it easy to communicate without interrupting your workflow. Buy the Logitech H390 USB Headset online for dependable computer audio and convenient communication in South Africa.

Overview Summary

Logitech H390 USB Computer Headset - 981-000406

The Logitech H390 is a black, wired USB stereo headset designed for professional communication, online meetings and everyday computer use. Its 30 mm audio drivers deliver enhanced digital sound for voice calls, music and multimedia, while the noise-cancelling microphone helps minimise unwanted background noise for clearer conversations.

The adjustable headband and leatherette ear cushions provide a comfortable fit for extended use. A rotating microphone boom can be moved out of the way when not required, and the in-line controls provide convenient access to volume adjustment and microphone mute. The USB-A connection offers straightforward plug-and-play setup on compatible computers, making this headset suitable for offices, home workstations, call centres and online learning.

Performance tier: Entry-level to mid-range wired computer headset for everyday communication and multimedia.

Uses: Video conferencing, remote work, office calls, call centres, online learning, voice calls, music playback, computer multimedia.

Overview

Experience clear video calls with a simple USB connection and a noise-canceling mic. Inline controls to adjust volume or mute without interrupting calls. Fine-tuned drivers for enhanced digital audio.

Description

The Logitech H390 USB Computer Headset is a practical wired audio solution for users who need reliable sound and clear voice communication from a desktop computer or laptop. Its black design suits professional office environments, home offices, educational workstations and customer service desks. The USB connection simplifies setup by allowing the headset to connect directly to a compatible computer without requiring a separate analogue audio connection.

Enhanced digital audio

The 30 mm audio drivers are designed to deliver clear digital sound for video conferences, online lessons, music and general multimedia. With a headphone frequency response of 20 Hz to 20 kHz, the H390 supports a broad range of audio content for everyday listening and communication.

Noise-cancelling microphone for clearer calls

The bidirectional microphone is designed to reduce unwanted background noise during conversations. Its rigid boom sits on the left side and can be adjusted to position the microphone for voice capture. When you no longer need the microphone, rotate the boom out of the way for a more convenient listening experience.

Comfortable design for extended use

The adjustable headband and swivel-mounted leatherette ear cushions help provide a comfortable fit during work sessions, online meetings and study periods. Its lightweight headset construction supports everyday use at a desk or workstation.

Convenient in-line controls

The cable-mounted controls allow you to adjust listening volume and mute the microphone without navigating through software menus. This is useful when joining meetings, handling customer calls or responding quickly during online conversations.

Simple USB connectivity

The wired USB-A connection provides plug-and-play convenience on compatible computers. The 1.9 m cable offers flexibility for typical desk setups, while the absence of a wireless connection or battery requirement keeps everyday operation straightforward.

For South African professionals, students and home users looking for a practical computer headset, the Logitech H390 combines digital audio, a noise-cancelling microphone and accessible controls in one convenient device.

Features

The Logitech H390 combines straightforward USB connectivity with practical communication features for everyday computer use.

- USB-A connectivity: Connects directly to a compatible computer for convenient plug-and-play operation.
- 30 mm audio drivers: Deliver enhanced digital audio for calls, meetings, music and multimedia.
- Noise-cancelling microphone: Helps minimise unwanted background noise during voice communication.
- Rotating microphone boom: Allows the microphone to be positioned for calls or moved out of the way when not needed.
- In-line volume control: Provides convenient access to listening volume adjustments.
- Microphone mute control: Makes it easy to mute your microphone during meetings and calls.
- Adjustable headband: Helps accommodate different head sizes for a more personalised fit.
- Leatherette ear cushions: Provide a cushioned contact surface for everyday listening comfort.
- Wired operation: Does not require wireless pairing or headset battery charging.
- Broad everyday compatibility: Designed for use with compatible Windows, macOS and ChromeOS computers with an available USB connection.
- Black finish: Offers a professional appearance suitable for office and home workstation setups.

Work better, in color

Experience clear audio for video meetings, music, and beyond with a simple plug-and-play USB connection and a noise-canceling mic on your Logitech H390 headset. Easily tuck the mic boom out of the way when not in use. Inline controls let you control volume or mute without interrupting calls. Fine-tuned drivers deliver enhanced digital audio for work or play.

Hear better

Fine-tuned 30 mm audio drivers deliver enhanced digital audio for meetings, music, and more.

Fit better

Adjustable headband features swivel-mounted, leatherette ear cushions for hours of comfort.

Sound better

H390 minimizes unwanted background noise for clear conversations. The rigid, left-side mic can be positioned for better voice capture. A rotating boom can be tucked out of the way when not in use.

Connect better

Simply plug the USB-A connector into your computer and you're ready to talk or listen right away. The 1.9 m cable gives you the freedom to stand up and stretch during long conversations.

Meet better

Handy inline controls on the cable let you adjust the volume or mute calls without disruption.

FAQ

What is the Logitech H390 USB Computer Headset used for"

The Logitech H390 is designed for computer-based communication, including video meetings, remote work, customer service calls, online learning and everyday audio playback.

Does the Logitech H390 have a noise-cancelling microphone"

Yes. Its noise-cancelling microphone helps minimise unwanted background noise during calls. It features a rotating boom that can be moved out of the way when the microphone is not needed.

How does the Logitech H390 connect to a computer"

The model 981-000406 uses a wired USB-A connection. Plug it into an available compatible USB port to use the headset without wireless pairing or battery charging.

Is the Logitech H390 compatible with laptops"

Yes. It is suitable for compatible laptops and desktop computers running Windows, macOS or ChromeOS, provided the device supports the headset's USB-A connection and the required audio functions.

Does the Logitech H390 have volume and mute controls"

Yes. The headset includes in-line controls for adjusting listening volume and muting the microphone, allowing convenient adjustments during calls and meetings.

What is the audio frequency response of the Logitech H390"

The headphone frequency response is 20 Hz to 20 kHz, while the microphone frequency response is 100 Hz to 10 kHz.

Is the Logitech H390 suitable for working from home"

Yes. Its wired USB connection, noise-cancelling microphone, adjustable headband and in-line controls make it suitable for home offices, remote meetings and online communication.

Does the Logitech H390 connect using Bluetooth"

No. The 981-000406 model is a wired USB-A headset and does not use Bluetooth for connectivity.

What is included with the Logitech H390 USB Headset"

The package includes the Logitech H390 USB Computer Headset and user documentation.
