Buy now from our website for reliable wired audio and clear voice calls in South Africa.

Overview Summary

Astrum A12011-B HS110 On-ear Wired Stereo Headset with Flex Mic

The Astrum HS110 is an on-ear wired stereo headset developed for everyday communication, online conferencing, remote work, virtual learning, and multimedia playback. Its lightweight construction, adjustable headband, and soft foam ear cushions provide lasting comfort during extended listening sessions.

The flexible rotating microphone helps capture speech clearly while reducing unwanted background noise during voice calls.

ComX Computers

Product Specification Sheet

Dual 3.5mm audio connectors allow separate headphone and microphone connections for compatible desktop computers and laptops, while the in-line volume controller makes quick audio adjustments simple.

Performance tier: Entry-level business and everyday multimedia headset

Uses: Online meetings, VOIP calls, remote work, distance learning, webinars, PC audio, music listening, multimedia playback

Overview

Compact fitting headphone with foam padded earpads, adjustable headband and rotating microphone for PC calls.

Description

The Astrum HS110 is designed for users who need dependable wired audio for communication and entertainment. Its lightweight on-ear design combines comfort with practical functionality, making it suitable for home, office, educational, and business environments.

The adjustable headband allows users to achieve a comfortable fit, while the soft foam ear cushions help reduce pressure during long listening sessions. The rotating flexible microphone can be positioned for improved voice pickup and can be worn on either side for added convenience.

Dual 3.5mm connectors provide dedicated headphone and microphone connections for compatible desktop computers and laptops. An integrated in-line volume controller allows quick sound adjustment without changing software settings, making the headset ideal for online meetings, internet calls, webinars, multimedia playback, and everyday computer use.
