Mecer A2057N+ 19.5" LED Monitor, 19.5" LED; resolution:1600x900; panel:TN; HDMI+VGA ports; built-in speakers; VESA75x75mm mount; power consume

Specifications

About this product

The Mecer A2057N+ 19.5" LED Monitor delivers crisp 1600 x 900 resolution on a 16 : 9 widescreen panel with both VGA and HDMI ports, integrated dual 2 W speakers and VESA wall-mount support-ideal for reliable everyday desktop or office viewing.

Overview Summary

Performance tier: Value / Entry to Mainstream

Uses: Home office computing, general office tasks, secondary display, budget workstation

The Mecer A2057N+ is a compact 19.5-inch LED monitor offering a sharp 1600 x 900 resolution and a 16 : 9 aspect ratio that fits beautifully in tight workspaces or budget-conscious setups. With both VGA and HDMI inputs it supports legacy desktops as well as modern PCs or laptops. Its built-in dual speakers provide simple audio out of the box, making it convenient for general use without external speakers.

Designed for everyday productivity, the monitor features a TN panel with a 60 Hz refresh rate and typical response times around 5 ms, delivering fluid visuals for email, browsing, spreadsheets and streaming. The anti-glare coating, VESA compatibility and low power consumption (

Quick Specifications:

- Screen size: 19.5 inches
- Flat or curve: Flat
- Panel type: TN (Active matrix TFT) with LED back-lighting
- Aspect ratio: 16 : 9
- Resolution: 1600 x 900 pixels
- Refresh rate: 60 Hz

- Brightness (nits): 250 cd/m² (typical)
- Contrast ratio: 1000 : 1 (typical)
- View angle (degrees): H: 170degrees / V: 160degrees
- Response time (ms): 5 ms typical
- Frequency (Hz): 60 Hz
- Sync: -
- Video ports: VGA x1, HDMI x1
- VESA: 75 x 75 mm
- Monitor performance tier: Entry/Mainstream
- Uses: General computing, office productivity, budget workstation screen

Strong reasons to buy

- Reliable 19.5-inch form factor with 1600x900 resolution-ideal where space is limited but clarity matters.
- Dual input support (HDMI + VGA) ensures compatibility with older PC systems and newer laptops or streaming devices.
- Built-in 2 W + 2 W speakers remove the need for external speakers in basic use scenarios.
- Anti-glare screen coating and wall-mount compatibility (VESA) provide flexible placement for offices or homes.
- Low power draw (under 25 W) helps reduce operating costs and heat in compact setups.

Description

The Mecer A2057N+ monitor blends practicality and value in a compact 19.5-inch LED display. Its TN panel delivers adequate colour and clarity for general computing applications, while its 16 : 9 widescreen format adapts well to spreadsheets, web browsing, video streaming and everyday office tasks. The 1600x900 resolution offers more vertical space than standard 1366x768 panels, improving workflow without a big leap in cost.

Connectivity is straightforward thanks to both VGA and HDMI ports-this ensures broad compatibility with desktop PCs, laptops, or even media boxes. Built-in dual speakers simplify set up when external audio isn't required, and the anti-glare surface helps reduce distracting reflections in bright environments.

Installation is flexible: the monitor supports a standard VESA wall-mount (75x75 mm), so you can free up desk space or mount it in compact workstations. The stand allows a slight tilt from -5degrees to 15degrees, giving just enough adjustment for comfortable viewing. With a typical power consumption of under 25 W the screen stays efficient and cool, making it a smart choice for budget-conscious users.

Features

Explore the key benefits this monitor brings to your workspace:

- 19.5-inch LED widescreen with 16 : 9 aspect ratio-delivers a comfortable balance between size and productivity.
- 1600x900 resolution for crisp visuals that outperform basic HD displays in office or home setups.
- Dual input ports (HDMI + VGA) give you versatile connectivity options-ideal for mixed hardware environments.
- Built-in stereo speakers (2 W + 2 W) provide integrated sound without additional hardware requirements.
- Anti-glare screen finish and low blue light mode support a comfortable, safe viewing experience over extended sessions.
- VESA 75x75 mm mounting support allows wall or monitor-arm installation for versatile configurations.
- Slim body design and low power consumption (

- Speakers: 2 W x 2 built-in stereo
- VESA mount: 75 x 75 mm
- Dimensions (without stand): ~468.15 x 39.52 x 285.72 mm
- Net weight: ~1.9 kg
- Power consumption: <= 24 W
- Operating temperature: 0 degreesC to 50 degreesC
- Panel surface: Anti-glare, haze 25%, hard coating (3H)

FAQ

What ports does the Mecer A2057N+ monitor have?

The monitor includes both a VGA port and a full-size HDMI port, giving you flexibility for legacy PCs as well as modern laptops or media devices.

Can I mount this monitor on a wall or monitor arm?

Yes - the screen supports a 75 x 75 mm VESA mount pattern, allowing for wall or arm mounting configurations for flexible workspace setup.

Does this monitor include built-in speakers?

Yes, it has built-in stereo speakers with 2 W output each, so external speakers are not strictly necessary for general use.

Is this monitor suitable for gaming?

This model is optimized for value and everyday computing rather than high-end gaming: it supports a 60 Hz refresh rate and typical 5 ms response time, which is sufficient for office or home use rather than competitive gaming.

What size of desk space is required?

At 19.5 inches with overall width around 468 mm and depth (with stand) about 156 mm, the monitor fits comfortably in smaller desk setups and can be wall-mounted if you want to free up space.
