Overview Summary

Astrum AE115 3.5mm Male to Female Aux Extension Cable 1.5m

The Astrum AE115 is a premium 1.5m stereo extension cable designed to increase the reach of any standard 3.5mm audio connection. It is ideal for extending headphone, speaker and auxiliary cables while maintaining clear, uninterrupted stereo sound.

Featuring a 100% copper conductor, braided EMI and RFI shielding, nickel plated connectors and a flexible PVC outer jacket, this cable is engineered for dependable everyday use. It is compatible with a wide range of devices including smartphones, tablets, laptops, desktop PCs, portable media players, home audio systems and car stereos.

Performance tier:Premium Everyday Audio

Uses:Headphones, speakers, car audio, laptops, smartphones, tablets, stereo systems, audio extension

Overview

High quality 3.5mm male to female Aux extension cable for extending headphone and speakers cable length connected to stereo devices with molded connectors.

Description

The Astrum AE115 is designed to extend the length of existing 3.5mm stereo audio cables for greater flexibility when

ComX Computers

Product Specification Sheet

connecting headphones, speakers and other audio equipment. Its durable construction makes it suitable for both home and mobile use while helping reduce strain on the original device connection.

A high quality copper conductor delivers consistent stereo audio performance, while braided shielding helps minimise electromagnetic and radio frequency interference. Nickel plated connectors provide a secure fit and reliable signal transfer, and the soft PVC outer jacket offers flexibility and durability for everyday use.

The universal 3.5mm male to female connection makes this extension cable suitable for smartphones, tablets, laptops, desktop computers, MP3 players, home stereo systems, multimedia speakers and compatible car audio equipment.

Features

The Astrum AE115 combines quality materials with universal compatibility to provide dependable audio extension for a wide variety of devices.

- 1.5m 3.5mm male to female stereo extension cable.
- 100% copper conductor for clear audio transmission.
- Braided shielding helps reduce EMI and RFI interference.
- Nickel plated connectors for reliable connectivity.
- Flexible PVC outer jacket improves durability.
- Compatible with most devices using a standard 3.5mm audio jack.
- Suitable for headphones, speakers and stereo equipment.

What's in the Box

- 1 x Astrum AE115 3.5mm Male to Female Aux Extension Cable 1.5m
