Overview Summary

Astrum A33003-B OC020 Mini USB Male to USB Female OTG Cable

The Astrum OC020 is a compact USB On-The-Go adapter cable designed to expand the functionality of compatible Mini USB devices. Featuring a Mini USB male connector on one end and a standard USB Type-A female connector on the other, it enables direct connection of supported USB peripherals without requiring a desktop or laptop computer.

With USB 2.0 data transfer support, copper conductors and triple braid shielding, this cable delivers dependable connectivity for everyday use. Its flexible PVC outer jacket and compact 20 cm length make it easy to carry with portable devices, making it suitable for travel, work or home use.

Performance tier:Entry-level

Uses:Connecting USB flash drives, connecting keyboards, connecting mice, OTG accessories, portable device connectivity, data transfer

Overview

Mini USB male to USB-A female OTG cable for connecting various USB plug and play devices to tablets, smart devices or digital cameras.

Description

The Astrum A33003-B OC020 Mini USB Male to USB Female OTG Cable provides a simple way to connect compatible USB peripherals directly to supported Mini USB devices. Designed for USB On-The-Go functionality, it allows devices capable of OTG operation to communicate with USB accessories including flash drives, keyboards and mice.

The cable features a Mini USB male connector and a standard USB Type-A female connector with USB 2.0 support. Copper conductors and triple braid shielding help maintain reliable signal quality, while the PVC outer jacket improves durability for regular use. Its compact 20 cm design is easy to store and transport, making it a practical accessory for mobile users.

Features

The Astrum OC020 is designed to extend the capabilities of compatible Mini USB devices by providing a convenient USB OTG connection.

- Mini USB male to USB Type-A female OTG adapter cable.
- Supports USB 2.0 data transfer.
- Compatible with supported OTG enabled Mini USB devices.
- Allows connection of USB flash drives, keyboards and mice.
- Copper conductor for reliable performance.
- Triple braid shielding helps reduce interference.
- Durable PVC outer jacket.
- Compact 20 cm cable for portable use.
- Plug and play operation on compatible devices.

OTG Functionality

Supports On-The-Go functionality, enabling your tablet, smartphone, or digital camera to act as a host device for USB peripherals such as flash drives, keyboards, mice, and more.

Mini USB to USB-A

Converts Mini USB interface to standard USB-A, ensuring compatibility with a wide range of devices equipped with USB ports.

Plug and Play

No drivers or software installation required for most devices, making it convenient to connect and use USB peripherals instantly.

Versatile Connectivity

Ideal for transferring photos from digital cameras, connecting external storage devices to tablets or smartphones, or using USB accessories with smart devices.

Compact and Portable

Compact design for easy storage and portability, making it convenient to carry in your bag or pocket for on-the-go use.

Durable Construction

Built with high-quality materials to withstand frequent use, ensuring durability and reliable performance over time.

Universal Compatibility

Compatible with tablets, smartphones, digital cameras, and other devices that support OTG functionality and have a Mini USB port.

What's in the Box

- 1 x Astrum A33003-B OC020 Mini USB Male to USB Female OTG Cable

- Cable outer diameter: 3.5 mm
- Conductor material: Copper
- Shielding: Triple braid shielding
- Outer jacket: PVC
- Colour: Black
- Packaging: Blister pack

FAQ

What is the Astrum OC020 Mini USB OTG cable used for?

The Astrum OC020 allows compatible Mini USB devices with OTG support to connect directly to standard USB peripherals such as flash drives, keyboards and mice.

Does this cable support USB 2.0?

Yes. The cable supports USB 2.0 data transfer with speeds of up to 480 Mbps.

Can I connect a USB flash drive using this cable?

Yes, provided the connected Mini USB device supports USB OTG functionality and external USB storage.

Will this cable work with every Mini USB device?

No. The connected device must support USB On-The-Go functionality for USB peripherals to operate correctly.

Is this cable suitable for travel?

Yes. Its compact 20 cm length makes it easy to carry in a laptop bag, backpack or accessory pouch.
