Astrum UM201 Black USB 2.0 Male to Male 1.8m Device Cable

Product Overview

Astrum UM201 Black USB 2.0 Male to Male 1.8m Device Cable

Specifications

About this product

The Astrum A33301-B UM201 Black USB 2.0 Male to Male 1.8m Device Cable provides a reliable connection between compatible USB devices with USB Type-A male ports. Supporting USB 2.0 data transfer speeds of up to 480Mbps, this durable cable features copper conductors with triple braid shielding to reduce EMI and RFI interference for stable performance. Buy this Astrum USB 2.0 Male to Male cable online today for quick delivery in South Africa.

Overview Summary

Astrum A33301-B UM201 Black USB 2.0 Male to Male 1.8m Device Cable

The Astrum UM201 is a high quality USB 2.0 Type-A male to Type-A male cable designed for connecting compatible USB devices, external hard drive enclosures, docking devices, cameras, keyboards, mice, and other supported USB peripherals. It delivers dependable USB 2.0 performance with transfer speeds of up to 480Mbps.

Built with copper conductors, triple braid shielding, and a durable PVC outer jacket, the cable helps reduce electromagnetic and radio frequency interference while providing long lasting reliability for home, office, and professional use. The 1.8m length offers flexible installation without sacrificing signal quality.

Performance tier:Standard USB 2.0

Uses:Connecting compatible USB devices, external drive enclosures, cameras, keyboards, mice, USB peripherals, data transfer

Overview

Quality high speed USB 2.0 male to male cable designed for connecting USB devices, HDD drives, cameras, mice, keyboards and others to computers and laptops.

Description

ComX Computers

Product Specification Sheet

The Astrum A33301-B UM201 is designed to provide stable and efficient USB connectivity between compatible devices equipped with USB Type-A ports. With support for USB 2.0 transfer speeds of up to 480Mbps, it is suitable for everyday file transfers and peripheral connections.

The cable uses copper conductors together with triple braid shielding to minimise EMI and RFI interference, helping maintain reliable data communication. A durable PVC outer jacket protects the cable from everyday wear while maintaining flexibility for convenient routing around desks, workstations, or entertainment systems.

The 1.8 metre cable length provides extra reach for connecting devices while maintaining dependable USB 2.0 performance. Its plug and play design allows quick installation without additional software.

Features

The Astrum UM201 combines dependable construction with reliable USB 2.0 performance for everyday device connectivity.

- USB 2.0 Type-A male to Type-A male cable
- Supports data transfer speeds up to 480Mbps
- 1.8m cable length
- Copper conductor construction
- Triple braid shielding helps reduce EMI and RFI interference
- Durable PVC outer jacket
- Suitable for compatible USB devices and peripherals
- Plug and play operation
- Black finish

Seamless Connectivity

Our USB 2.0 Male to Male cable offers a straightforward solution for connecting USB devices, ensuring hassle-free setup and reliable performance.

High-Speed Data Transfer

Experience lightning-fast data transfer speeds of up to 480Mbps with USB 2.0 technology, allowing for swift and efficient file transfers between your devices.

Enhanced Signal Integrity

The tin copper shield wrap effectively blocks electromagnetic interference (EMI) and radio-frequency interference (RFI), ensuring a stable and interference-free connection for uninterrupted data transmission.

Versatile Compatibility

Compatible with a wide range of USB devices, this cable extends the USB connection capability of your gadgets, providing flexibility and convenience for various applications.

Durable Construction

Crafted from high-quality materials, our cable is built to withstand daily use, offering durability and longevity to support your USB connectivity needs for years to come.

What's in the Box

- 1 x Astrum A33301-B UM201 USB 2.0 Male to Male 1.8m Device Cable

Specifications

- Brand: Astrum
- Model: UM201
- Product code: A33301-B

ComX Computers

Product Specification Sheet

- Cable type: USB 2.0 Device Cable
- Connector 1: USB 2.0 Type-A Male
- Connector 2: USB 2.0 Type-A Male
- USB standard: USB 2.0
- Maximum data transfer speed: Up to 480Mbps
- Cable length: 1.8m
- Colour: Black
- Conductor material: Copper
- Shielding: Triple braid shielding
- Outer material: PVC
- Cable outer diameter: 3.5mm
- Supports EMI and RFI interference reduction
- Retail packaging

FAQ

What is the Astrum UM201 USB cable used for?

The Astrum UM201 is designed to connect compatible USB devices that use USB Type-A male connectors for data communication.

What is the maximum transfer speed?

The cable supports USB 2.0 transfer speeds of up to 480Mbps when connected to compatible USB 2.0 devices.

How long is the cable?

The cable has a length of 1.8 metres, providing additional reach for connecting compatible equipment.

Does the cable help reduce signal interference?

Yes. It features copper conductors with triple braid shielding to help reduce EMI and RFI interference during data transmission.

Is this a charging cable?

The UM201 is primarily designed as a USB 2.0 device cable for compatible USB Type-A devices. Compatibility depends on the connected equipment and manufacturer requirements.
