Specifications

About this product

The Astrum A38051-B DA510 VGA Male to HDMI Female + Audio Adapter provides a reliable solution for connecting older VGA-equipped computers and laptops to modern HDMI displays. Featuring Full HD 1080p support, integrated audio input, plug and play operation, and Micro USB power, this compact adapter is ideal for presentations, office work, digital signage, classrooms, and home entertainment. Buy now from our website for quick delivery in South Africa.

Overview Summary

Astrum A38051-B DA510 VGA Male to HDMI Female + Audio Adapter

The Astrum DA510 converts analog VGA video together with 3.5mm audio into a digital HDMI output, allowing older desktop PCs, laptops and other VGA devices to connect to HDMI televisions, monitors and projectors. The integrated conversion chipset delivers Full HD 1080p output while maintaining clear picture quality and synchronized audio.

Designed for portability and everyday use, the adapter features plug and play installation with no software required. A Micro USB power connection ensures stable signal conversion, making it suitable for business presentations, classrooms, conference rooms, multimedia playback and extending the life of legacy VGA equipment.

Performance tier: Entry-level display converter

Uses: Connect VGA computers to HDMI displays, presentations, office workstations, classrooms, projectors, HDTVs, digital signage, multimedia playback.

Overview

Full HD 1080p VGA male to HDMI female adapter for directly connecting HDMI input device such as TV Stick to your display or to extend your HDMI display.

Description

The Astrum A38051-B DA510 is designed to bridge the gap between legacy VGA devices and modern HDMI displays. By combining analog VGA video with a separate 3.5mm audio connection, the adapter converts both signals into a single HDMI output suitable for televisions, monitors and projectors.

The adapter is ideal for users who need to connect older computers, notebooks or business systems to HDMI-equipped displays without replacing existing hardware. Its integrated conversion circuitry ensures stable Full HD video output while the included Micro USB power input provides the additional power required for reliable analog to digital signal conversion.

Compact and lightweight, the DA510 is easy to transport between offices, classrooms and meeting rooms. Plug and play functionality eliminates software installation, allowing users to quickly connect compatible equipment and begin working or presenting.

Features

The Astrum DA510 provides dependable VGA to HDMI conversion with integrated audio support for legacy display devices.

- Converts VGA video and 3.5mm audio to HDMI.
- Supports Full HD 1080p resolution at 60Hz.
- Plug and play installation with automatic detection.
- Micro USB power input for stable conversion.
- Compact and portable design.
- Compatible with HDTVs, monitors and projectors.
- Supports VGA, XGA, SVGA, SXGA and UGA display formats.
- Oxygen-free copper conductors for dependable signal transmission.
- Suitable for Windows, macOS and Linux systems.

What's in the Box

- 1 x Astrum DA510 VGA Male to HDMI Female + Audio Adapter
- 1 x Micro USB power cable

Specifications

- Brand: Astrum
- Model: DA510
- Part Number: A38051-B
- Product Type: VGA to HDMI adapter
- Colour: Black
- Video Input: VGA male (15-pin D-Sub)
- Audio Input: 3.5mm audio
- Video Output: HDMI Type-A female
- Power Input: Micro USB
- Maximum Resolution: 1920 x 1080 at 60Hz
- Supported Display Formats: VGA, XGA, SVGA, SXGA, UGA
- Installation: Plug and play
- Compatibility: Windows, macOS, Linux
- Conductor Material: Oxygen-free copper
- Weight: Approximately 16g

FAQ

What does the Astrum DA510 adapter do?

The adapter converts analog VGA video together with 3.5mm audio into a digital HDMI output for use with HDMI displays.

Does this adapter support Full HD?

Yes. It supports video output up to 1920 x 1080 at 60Hz.

Does the adapter carry audio?

Yes. Audio is supplied through the integrated 3.5mm audio input and combined with the HDMI output.

Is additional power required?

Yes. The adapter uses a Micro USB power connection to operate the internal signal conversion circuitry.

Which devices are compatible?

The adapter works with VGA-equipped desktop computers, laptops and similar devices, connecting them to HDMI televisions, monitors and projectors.

Do I need to install drivers?

No. The adapter supports plug and play operation and does not require additional software installation.
