Specifications

About this product

The Astrum A83511-B MP110 Antiskid PVC Mouse Pad is designed to provide smooth and accurate mouse tracking for gaming, office work, and everyday computing. Its anti-slip base helps keep the mouse pad securely in place while the durable PVC surface delivers consistent performance for optical mice. Buy now from our website for quick delivery in South Africa.

Overview Summary

Astrum A83511-B MP110 Antiskid PVC Mouse Pad

The Astrum MP110 is a compact rectangular mouse pad featuring a smooth PVC surface that allows accurate cursor movement and responsive tracking. Its anti-slip design keeps the mouse pad firmly positioned during work or gaming, helping improve precision and user comfort.

Designed for both home and office environments, the MP110 offers a durable construction that resists everyday wear while maintaining smooth mouse movement. Its compact size makes it suitable for desks with limited space without compromising usability.

Performance tier:Entry-level

Uses:Office work, gaming, home computing, study, everyday mouse control

Overview

Ultra smooth rectangle PVC mousepad, antiskid providing fast tracked scrolling for optical mice, recommended for gaming and office use.

Description

The Astrum MP110 Antiskid PVC Mouse Pad is built to provide a reliable and consistent surface for optical mouse operation.

The smooth PVC finish reduces friction, allowing fast and accurate cursor movement for productivity and gaming applications.

An anti-slip base helps prevent unwanted movement during use, providing greater stability when working on detailed tasks or during fast-paced gameplay. Its compact rectangular design fits comfortably on most desks while offering sufficient movement space for everyday computing.

The durable PVC construction is easy to maintain and designed to withstand regular daily use, making the MP110 a practical accessory for home users, students, office professionals, and gamers looking for dependable mouse control.

Features

The Astrum MP110 combines a smooth tracking surface with a stable anti-slip base for dependable everyday performance.
