

AD5S56008G-S

Adata Premier 8GB DDR5-5600 262pin 1.1V CL46 SO-DIMM Memory

Product Overview

Adata Premier 8GB DDR5-5600 262pin 1.1V CL46 SO-DIMM Memory, AD5S56008G-S

Specifications

Overview:

Higher Frequencies

The DDR5-5600 SO-DIMM delivers blazing frequencies of up to 5600 MHz, a major leap from the max. frequency of DDR4 modules (3200 MHz).

More Energy-Efficient

This next-gen memory module operates on just 1.1V, making it 8% more power-efficient than DDR4 . What's more, it features a built-in Power Management IC (PMIC) to enhanced power supply stability.

Capacity Doubled

This memory module's architecture allows for more memory bank groups and banks. With the same area, more bank groups can be packed into the module, doubling what was possible with DDR4, giving you higher capacities.

Improved Stability

With error correcting code (ECC) this module can correct errors automatically in real-time. In addition to greatly reducing the burden of CPU calculations, it also provides increased stability and reliability for enterprise-class computers.

Specifications	
Product Code	AD5S56008G-S
Memory Type	DDR5
Form Factor	SO-DIMM
Capacity	8GB / 16GB / 32GB
Speeds	5600
CAS Latencies	46
Operating Voltage	1.1V
Operating temperature	0 degreesC to 85 degreesC
