Microworld RS232 9 pin Male Serial to RJ45 Convertor

Product Overview

Microworld RS232 9 pin Male Serial to RJ45 Convertor; compatible console networking connections

Specifications

About this product

The Microworld ADA024 RS232 9 Pin Male Serial to RJ45 Convertor is a compact serial adapter designed to connect an RS232 DB9 male serial port to an RJ45 interface. It is suitable for serial and console networking applications where an RJ45 interface is required. Buy now from our website for a practical serial connectivity solution in South Africa.

Overview Summary

Microworld ADA024 RS232 9 Pin Male Serial to RJ45 Convertor

The ADA024 provides a simple connection between an RS232 9 pin male serial interface and an RJ45 interface. It is designed for applications that require an RS232 serial port connection to an RJ45 interface, including compatible networking and console connections.

This compact adapter is suited to technicians, installers and users working with serial networking equipment and legacy RS232 connections. Its straightforward adapter design makes it useful for connecting compatible serial equipment without requiring a larger converter unit. Buy for quick delivery and convenient serial connectivity in South Africa.

Performance tier: Entry-level serial connectivity adapter

Uses: RS232 serial connections, RJ45 interface connections, console connections, compatible networking equipment, serial equipment installation

Description

The Microworld ADA024 is an RS232 9 pin male serial to RJ45 convertor designed for compatible serial connectivity applications. It provides an interface between an RS232 DB9 male serial connection and an RJ45 interface in a compact adapter format.

This adapter can be useful when working with compatible networking equipment, console ports and other serial devices that use an RJ45 interface for serial connectivity. It is intended as a physical interface adapter rather than a USB converter or

network adapter.

The ADA024 is a practical choice for technicians, system installers and users who need to connect compatible RS232 serial equipment using an RJ45 interface. Its compact form makes it convenient to keep as part of a toolkit for serial installation and maintenance work.

Features

The Microworld ADA024 provides a straightforward physical interface for compatible RS232 serial and RJ45 connections.

- RS232 9 pin male serial interface
- RJ45 interface
- Converts a compatible RS232 serial interface to an RJ45 interface
- Compact adapter design
- Suitable for compatible serial and console networking applications
- Useful for serial installation and maintenance tasks

What's in the Box

- 1 x Microworld ADA024 RS232 9 pin male serial to RJ45 convertor

Specifications

- Brand: Microworld
- Model: ADA024
- Product type: Serial adapter
- Serial interface: RS232
- Serial connector: 9 pin male
- Serial connector type: DB9 male
- Other interface: RJ45
- Function: Converts RS232 serial interface to RJ45 interface
- Application: Compatible serial and console networking connections

FAQ

What is the Microworld ADA024 used for?

The ADA024 is used to connect a compatible RS232 9 pin male serial interface to an RJ45 interface for suitable serial and console networking applications.

What connectors does the ADA024 have?

The adapter has an RS232 DB9 9 pin male serial connector and an RJ45 interface.

Is the ADA024 a USB to serial converter?

No. The ADA024 is an RS232 to RJ45 interface adapter and does not provide a USB interface.

Can the ADA024 be used for networking equipment?

Yes, it can be used with compatible networking equipment and console connections that use an RJ45 interface for RS232 serial communication.

Does the ADA024 require drivers?

The ADA024 is a passive interface adapter and does not function as a USB device requiring USB drivers. Compatibility

ComX Computers

Product Specification Sheet

depends on the serial pinout and equipment being connected.

Who is the Microworld ADA024 suitable for?

It is suitable for technicians, installers and users who need a compact adapter for compatible RS232 serial and RJ45 interface connections.
