

ADA500

Microworld HDMI Male to HDMI Female 270-degree angled design

Product Overview

Microworld HDMI Male to HDMI Female 270-degree angled design; Full HD and 4K video and audio; gold-plated connectors; black; compact construction; space-restricted HDMI installations; cable management; TVs, monitors, computers and projectors

Specifications

About this product

The Microworld ADA500 HDMI Male to HDMI Female 270 adapter is a compact right-angle HDMI adapter designed to make HDMI connections easier in tight or space-restricted installations. Its angled design helps reduce excessive bending at the HDMI cable connection while providing HDMI male to HDMI female connectivity for compatible HDMI devices. The black adapter features gold-plated connectors and supports Full HD and 4K video and audio. Buy now from our website for a practical HDMI connection solution.

Overview Summary

Microworld ADA500 HDMI Male to HDMI Female 270 Adapter provides a practical solution where a standard straight HDMI connection is difficult to install. The 270-degree angled design helps route an HDMI cable in space-restricted areas and can help reduce strain caused by excessive cable bending.

The HDMI male to HDMI female configuration allows an existing HDMI cable to connect to an HDMI port while changing the cable direction. The adapter supports Full HD and 4K video and audio and uses gold-plated connectors for stable signal transfer. Its compact black construction makes it suitable for home entertainment, computer, monitor, television and other HDMI-enabled equipment.

Performance tier: Standard HDMI connectivity accessory

Uses: HDMI cable direction change, tight-space installations, cable management, TVs, monitors, computers, projectors, HDMI-enabled devices

Description

The Microworld ADA500 HDMI Male to HDMI Female 270 adapter is designed to improve HDMI cable routing where space around a device or HDMI port is restricted. Instead of forcing an HDMI cable into a sharp bend immediately behind the connector, the angled adapter changes the connection direction and provides a neater installation.

ComX Computers

Product Specification Sheet

The adapter uses an HDMI male connector on one side and an HDMI female connector on the other, allowing an existing HDMI cable with a compatible HDMI connector to be connected through the adapter. This can be useful when an HDMI port is positioned close to a wall, cabinet or other obstruction where a conventional straight connection would be difficult to manage.

The ADA500 is specified to support Full HD and 4K video and audio. Gold-plated connectors are used to help provide stable signal transfer and resist corrosion. The compact black design makes the adapter suitable for a range of HDMI-enabled equipment, including televisions, monitors, computers and projectors.

Features

The Microworld ADA500 combines HDMI compatibility with an angled connector design for easier installation in restricted spaces.

- HDMI male to HDMI female configuration
- 270-degree angled HDMI design
- Designed for space-restricted HDMI installations
- Helps reduce excessive HDMI cable bending
- Supports Full HD video and audio
- Supports 4K video and audio
- Gold-plated connectors for stable signal transfer
- Compact and durable construction
- Black finish
- Suitable for compatible HDMI-enabled devices

What's in the Box

- 1 x Microworld ADA500 HDMI Male to HDMI Female 270 adapter

Specifications

- Brand: Microworld
- Model: ADA500
- Product type: HDMI adapter
- Input connector: HDMI male
- Output connector: HDMI female
- Connector type: HDMI Type A
- Design: 270-degree angled adapter
- Video support: Full HD and 4K
- Audio support: HDMI digital audio
- Connector finish: Gold-plated
- Colour: Black
- Construction: Compact and durable
- Primary function: Changes HDMI cable connection direction and helps reduce excessive cable bending

FAQ

What is the Microworld ADA500 HDMI Male to Female 270 adapter used for?

The ADA500 is used to change the direction of an HDMI cable connection and make HDMI installations easier where space is restricted.

Does the ADA500 have HDMI male and female connectors?

ComX Computers

Product Specification Sheet

Yes. The adapter has an HDMI male connector and an HDMI female connector.

Does the Microworld ADA500 support 4K?

Yes. The ADA500 is specified to support 4K video and audio as well as Full HD.

Can the ADA500 help with HDMI cable bending?

Yes. Its angled design is intended to reduce excessive bending of the HDMI cable close to the device port.

What devices can use the ADA500 HDMI adapter?

The adapter can be used with compatible HDMI-enabled equipment such as televisions, monitors, computers and projectors.

What colour is the Microworld ADA500?

The ADA500 has a black finish.

Does the ADA500 require drivers or software?

No software or drivers are required. It is a passive HDMI connection adapter.
