Specifications

About this product

The AENO DB8 Sonic Electric Toothbrush in White delivers effective daily oral care with sonic technology producing up to 30000 vibrations per minute. Featuring 3 brushing modes - Soft, Clean and White - premium DuPont bristles, a 2-minute brushing timer and 30-second dental zone reminders, it supports a thorough and convenient cleaning routine. The IPX7 water-resistant design and rechargeable 800mAh battery provide up to 100 days of use on a full charge. Supplied with 3 brush heads, a plaque remover, a dental mirror and a charging cable, this electric toothbrush is a practical choice for home and travel. Buy the AENO DB8 Sonic Electric Toothbrush online for convenient oral care in South Africa.

Overview Summary

AENO DB8 Sonic Electric Toothbrush - White

The AENO DB8 is a rechargeable sonic electric toothbrush designed to support daily dental hygiene through high-frequency vibrations and three specialised cleaning modes. Operating at up to 30000 vibrations per minute, it helps remove plaque from tooth surfaces and along the gumline. Choose Soft for a gentler brushing experience, Clean for everyday oral care or White for your whitening-focused brushing routine.

The toothbrush includes a 2-minute timer with reminders every 30 seconds to help you move between the four areas of your mouth. Its brush head replacement indicator helps you identify when a brush head needs changing, while the battery level indicator makes charge monitoring easier. With an IPX7 water protection rating and up to 100 days of operation on a full charge, the DB8 is suited to everyday use and travel. The included plaque remover and dental mirror add practical tools to your oral care kit.

Performance tier: Everyday personal oral care

Uses: Daily tooth brushing, plaque removal support, whitening-focused brushing, gentle brushing, travel oral care, dental hygiene maintenance

Description

The AENO DB8 Sonic Electric Toothbrush combines sonic brushing technology, practical cleaning modes and a long-lasting rechargeable battery to support a consistent oral hygiene routine. Its white design offers a clean, understated appearance, while its compact form makes it convenient for bathroom storage and travel.

The sonic motor delivers up to 30000 vibrations per minute to help loosen plaque from tooth surfaces and along the gumline. The three available modes - Soft, Clean and White - allow users to select a brushing setting suited to their preferences and daily care needs. The Soft mode offers a gentler option, while Clean is intended for routine brushing and White supports a whitening-focused cleaning routine.

A built-in 2-minute timer helps guide brushing duration, and the 30-second dental zone reminder encourages users to move systematically between the four areas of the mouth. The battery indicator displays the remaining charge status, while the brush head replacement indicator uses fading indicator bristles to signal when it is time to change the brush head.

The rechargeable 800mAh lithium-ion battery provides up to 100 days of operation on a full charge, depending on usage frequency and selected mode. A full charge takes up to 4 hours. The IPX7 water protection rating supports convenient rinsing and use in wet bathroom environments when used according to the manufacturer's instructions.

The included accessories make this model a useful personal oral care set. Three brush heads provide replacements for continued use, while the plaque remover and dental mirror offer additional tools for oral hygiene routines. The AENO DB8 is suitable for adults and can also offer a Soft mode option for children aged 3 and above under appropriate adult supervision. It does not replace professional dental cleaning or advice from a dental professional.

Features

The AENO DB8 combines practical brushing functions with convenient accessories for everyday oral hygiene.

- Sonic brushing technology: Delivers up to 30000 vibrations per minute to help remove plaque from tooth surfaces and along the gumline.
- Three brushing modes: Select Soft, Clean or White to suit different brushing preferences and oral care routines.
- Long battery life: Provides up to 100 days of use on a full charge, depending on the frequency of use and selected mode.
- Rechargeable 800mAh battery: Built-in lithium-ion battery with a full charging time of up to 4 hours.
- IPX7 water protection: Designed to withstand water exposure under the conditions defined by the IPX7 rating.
- 2-minute brushing timer: Helps users maintain a consistent brushing session.
- 30-second zone reminders: Prompts users to change brushing areas at regular intervals during a brushing session.
- Battery level indicator: Displays battery charge status to help users manage recharging.
- Brush head replacement indicator: Indicator bristles fade from blue to white to signal when the brush head should be replaced.
- DuPont bristles: Quality bristle material designed for effective everyday brushing.
- Three brush heads included: Provides replacement heads for continued oral care.
- Additional dental accessories: Includes a plaque remover and a dental mirror for supplementary oral hygiene tasks.
- Travel-friendly operation: The extended battery life reduces the need for frequent charging while away from home.

x10 more effective than a manual brush
Sonic toothbrush removes far more plaque than a manual toothbrush from the surface of the teeth and along the gumline without damaging the gums or damaging the enamel

Professional plaque cleaning
All needed accessories are included for optimum and effective daily mouth hygiene. Using a variety of accessories provides the impressive result and removes plaque even in hard-to-reach place

3 cleaning modes
Choose the best mode for you: Soft, Clean or White depending on the specific need

30 sec dental zone change reminder
The smart system provided in AENO toothbrushes will promptly remind you to change the brushing area 4 times every 30 seconds for more effective hygiene

Battery level indication
Keep track of your toothbrush's battery level with the LED indicator on the device body

30 000 vibrations per minute
As a result of high-frequency vibrations at a speed of 30 000 movements per minute, oxygenated fine foam is formed from toothpaste and biological fluids inside the oral cavity, which penetrates into hard-to-reach places and removes plaque

DuPont - premium quality bristles
AENO toothbrushes use high-quality DuPont(TM) Tynex(RegTM) bristles, proven in the oral care industry for over 75 years. In clinical research, Tynex(RegTM) bristles show superior wear resistance and higher flex recovery than other materials. These bristles successfully cope with all the nuances: cleaning the interdental spaces and gums, removing plaque and antimicrobial treatment

Brush head change reminder
You will always know when to replace the brush head: as soon as the blue indicator bristles turn white, then the time has come

Up to 100 days without recharging

One full charge provides up to 100 days of daily use. Take your AENO toothbrush with you and maintain oral hygiene with comfort wherever you are!

What's in the Box

- 1 x AENO DB8 sonic electric toothbrush handle, white
- 3 x toothbrush heads
- 1 x plaque remover cleaning tool

FAQ

What is the AENO DB8 Sonic Electric Toothbrush?

The AENO DB8 is a rechargeable sonic electric toothbrush designed for daily oral hygiene. It provides three brushing modes and operates at up to 30000 vibrations per minute.

What brushing modes does the AENO DB8 offer?

It offers Soft, Clean and White modes. These settings provide options for gentler brushing, everyday cleaning and a whitening-focused brushing routine.

How long does the AENO DB8 battery last?

A full charge provides up to 100 days of operation, depending on how frequently the toothbrush is used and which mode is selected. Charging takes up to 4 hours.

Is the AENO DB8 waterproof?

The toothbrush has an IPX7 water protection rating. Follow the manufacturer's instructions for cleaning, charging and safe use around water. Do not charge the toothbrush while it is wet.

Does the AENO DB8 include replacement brush heads?

Yes. The package includes three brush heads. Compatible replacement heads are listed under model code ADBTH7-8.

Does the AENO DB8 have a brushing timer?

Yes. It has a 2-minute timer and a 30-second reminder to help you move between the four areas of your mouth during brushing.

How do I know when to replace the brush head?

The brush head has indicator bristles that fade from blue to white to signal when replacement is due. Inspect the bristles regularly and replace the head when indicated or when the bristles become worn.

Can children use the AENO DB8?

The product specifications list the Soft mode as suitable for children aged 3 and above. Children should use it under appropriate adult supervision, and a parent or dental professional should confirm that an electric toothbrush is suitable for the child.

What accessories are included with the AENO DB8?

The package includes three toothbrush heads, a plaque remover, a dental mirror and a charging cable, along with the toothbrush handle.

Can the AENO DB8 replace professional dental cleaning?

No. The toothbrush supports daily oral hygiene but does not replace regular dental check-ups, professional cleaning or advice from a dentist.
