AG241QX

AOC AG241QX Agon 23.8" Flat 1ms Adaptive-sync UHD Gaming Monitor

Product Overview

AOC AG241QX Agon 23.8" Flat Monitor, 2560 x1440, 144hz, D Sub, VGA, HDMI, Display Port, Adaptive-Sync technology, 1 ms response time, USB fast charge, MHL

Specifications

Overview:

The AOC AGON AG241QX brings gaming to a new level with a high-speed, 24-inch display. 144Hz and 1ms response time give you the edge when gaming at a resolution of 2560x1440. This combination guarantees crystal-clear and ultra-smooth images. Thanks to Adaptive-Sync Technology (FreeSync™ compatible, at a 30-144Hz range), the days of stuttering and tearing are over. There is no place to hide, because AOC Shadow Control brings light to dark corners without adjusting the rest of the screen, and the Low Input Lag mode guarantees that commands are instantly executed. To deliver the most comfortable gaming experience, the AGON AG241QX comes with AOC Flicker Free Technology and AOC Low Blue Light mode to reduce eye strain and fatigue. Free adjustment of height, tilt and swivel round this up to be the perfect gaming monitor. Featuring an ultra-fast TN panel with 1ms response time and 2560 x 1440-pixel resolution. The AG241QX, has 144 Hz and Adaptive-Sync Technology which is designed to boost the performance of dedicated gamers by eliminating stutter, screen tearing and motion blur.

Features:

QHD Resolution
With 2560 x 1440 resolution, Quad HD (QHD) offers superior picture quality and sharp imagery that reveals the finest details. The widescreen 16:9 aspect ratio provides plenty of space to spread out and work, plus allows you to enjoy games or movies in their original size.

144Hz Refresh Rate
For the AGON line, doubling the industry standard refresh rate is just par for the course. Harness the graphical output of your PC with a monitor that can handle it: 144Hz translates high framerates into the level of smoothness and responsiveness appropriate for pro players and the most skilled.

Shadow Control
Bring the battle out of the shadows with Shadow Control! Brighten dark areas or sink them back into blackness on the fly, without affecting the rest of the display.

Adaptive Sync

Whatever your setup, achieve the highest framerate and smoothest display possible via AMD Free-Sync Technology. Whether you're dashing through explosions or screeching around rain slicked bends, wave goodbye to screen tearing and lag - and leave your opponents in your smoothly rendered dust.

Specifications:
