Product Overview

AENO GS1 Handheld 1500W garment steamer; 250ml water tank; 3 steam modes; 16 min runtime; 0.94kg net weight; no ironing board required

Specifications

About this product

The AENO Hand Garment Steamer GS1 delivers rapid, powerful steam from its 1500W heating element and a removable 250 ml water tank, offering up to 16 minutes of steaming and three adjustable steam modes. Ready to use in just 35 seconds, it's ideal for refreshing clothes, curtains and fabrics without an ironing board - whether vertically or horizontally. Compact, lightweight and travel-friendly, it combines convenience and performance in one versatile handheld steamer.

Overview Summary

Product:AENO Hand Garment Steamer GS1 - 1500W, detachable tank, 3 steam modes

The GS1 steamer is designed for quick wrinkle removal and fabric freshening at home or on the go. With three steam output levels (23 g/min, 30 g/min, 35 g/min) and steam temperature up to 160 degreesC, the device handles a variety of materials - from delicate shirts and dresses to heavier drapes. Thanks to its compact form factor, detachable 250 ml water tank and 1.9 m flexible cord, the steamer is easy to manoeuvre and ideal for vertical or horizontal steaming without an ironing board. It also features a stainless steel Teflon plate for smooth gliding, LED indicators for steam readiness and mode, and an auto power-off safety function for peace of mind.

Whether you need to freshen suits before a meeting, steam curtains quickly, or de-wrinkle a travel wardrobe, this handheld steamer combines portability, power and practicality into a single compact appliance.

Performance tier: Mid-range home steamer

Uses: Clothes steaming, Curtain steaming, Fabric refresh, Travel ironing, Quick wrinkle removal

Description

The AENO GS1 is a handheld garment steamer engineered for homeowners and travellers who want a fast, efficient and low-effort solution for garment care. Its 1500W power delivers strong steam output that loosens fabric fibers and removes wrinkles without pressing harsh heat directly onto clothes. The detachable 250 ml water tank makes refilling simple, while a visible water scale helps you monitor water levels at a glance. With a Teflon-coated stainless steel plate, steam glides smoothly across fabric, reducing friction and protecting delicate materials.

The steamer works in multiple orientations - vertical, horizontal or even upside-down - making it especially useful for hanging garments, curtains or upholstery. The 1.9 m flexible cord and lightweight build give you full mobility. For added convenience, the unit features LED indicators to show when steam is ready or which mode is selected, and an auto-off safety system to prevent overheating or dry-tank operation. It's compact enough for travel, yet powerful enough for home use, covering a wide range of fabric-care needs.

Features

Key advantages and functional benefits:

- Powerful 1500W steam engine for effective wrinkle removal and fabric refresh.
- Three steam modes (23 g/min, 30 g/min, 35 g/min) to adapt to different fabric types and thicknesses.
- Detachable 250 ml water tank with visible scale for easy refilling.
- Fast heat-up - ready to steam in approximately 35 seconds.
- Compact, lightweight and travel-friendly - ideal for use at home or on the go.
- Flexible 1.9 m cord and ergonomic handle for effortless maneuvering.
- Stainless steel Teflon plate for smooth gliding over fabric and easy cleaning.
- Safe to use: auto power-off for non-use, overheat and dry tank protection.
- No ironing board needed - works vertically or horizontally for hanging garments, curtains or upholstery.

- Includes measuring cup and cleaning brush for convenience.

What's in the Box

- 1 x AENO GS1 Hand Garment Steamer (1500W, 250 ml tank)
- 1 x Removable measuring cup
- 1 x Cleaning brush for fabrics
- User manual and warranty documentation

FAQ

Is the AENO GS1 easy to use for different fabric types?

Yes. With three adjustable steam output modes (23, 30 or 35 g/min) and a maximum steam temperature of 160 degreesC, the GS1 can handle a variety of fabrics - from delicate silks and shirts to heavier cottons or drapes. The removable water tank and simple one-button operation make it user-friendly for regular use.

Do I need an ironing board to use this steamer?

No. The GS1 is designed for use without an ironing board. It works vertically, horizontally or even upside-down, making it

suitable for steaming clothes on hangers, curtains, upholstery and other hard-to-iron items.

How long does the steamer run per fill?

With its 250 ml detachable tank, the GS1 provides up to approximately 16 minutes of continuous steaming per refill - sufficient for multiple garments or smaller steaming tasks.

Is it suitable for travel or small spaces?

Yes. The compact size, lightweight design (approx. 0.94 kg), and quick heat-up time make the GS1 a great option for travel, small flats or occasional garment care. It's easy to store and manoeuvre, and the removable tank simplifies packing.
