ADATA HD700 Black 1TB USB 3.0 External Hard Drive

Product Overview

ADATA HD700 1TB USB 3.0 Dust/Water proof (IP56), Military-grade shockproof, Triple-layer 256-bit AES encryption External Hard Drive - Black *No drive included

Specifications

Overview:

The AData HD700 is professionally-crafted to be a durable external hard drive for your most demanding experiences providing mobile, rapid, and dependable data access in a rugged and sporty design. It features a large storage capacity, and also undergoes stringent tests for waterproofing, dustproofing and shock resistance to provide excellent protection of data. To this triple protective approach data safeguards like 256-bit AES encryption and USB 3.0 speeds have been added , resulting in the stylish HD700 offering ruggedized, fast storage on multiple levels.

The AData HD700 has been carefully tested and certified using IEC IP56 waterproofing and dustproofing standards. The HD700 prevents all but the finest dust particles from entering its enclosure, and is proofed against high water pressure. Deserts, mountains, rivers, or seas, the HD700 greatly enhances the safety of your precious data. The HD700's enclosure is further wrapped in a tough silicone coat. All told, there are three layers of physical protection: the inner cushioned mounting, the shock-resistant plastic enclosure, and the removable silicone/rubber layer. The internal structure is made of just the drive and the mounts to reduce the number of shock-prone parts.

The HD700 can easily withstand accidental drops or impacts from your activities, as it meets MIL-STD-810G 516.6 requirements. G Shock Sensor Protection helps protect your data. If your HD700 suffers a severe shock from being struck, G Shock Sensor Protection automatically starts up and displays a flashing red light. When the shock has passed, a solid or flashing blue light displays indicating normal operation has resumed.

Features:

Be mightier with IP56 water and dust proofing

We've carefully tested and certified the HD700 using IEC IP56 waterproofing and dustproofing standards. The HD700 prevents all but the finest dust particles from entering its enclosure, and is proofed against high water pressure. Deserts, mountains, rivers, or seas, the HD700 greatly enhances the safety of your precious data.

Triple-layered for military-spec shock resistance

Product Specification Sheet

The HD700's enclosure is further wrapped in a tough silicone coat. All told, there are three layers of physical protection: the inner cushioned mounting, the shock-resistant plastic enclosure, and the removable silicone/rubber layer. The internal structure is made of just the drive and the mounts to reduce the number of shock-prone parts. The HD700 can easily withstand accidental drops or impacts from your activities, as it meets MIL-STD-810G 516.6 requirements.

Big files? Be fearless and store away!

The time has come to capture your experiences in always-greater fidelity, with higher resolution and detail density. That means bigger files, and the need for larger storage. The AData HD700 1TB is the perfect size for portable storage of the adventurous type.

G Shock Sensor Protection

G Shock Sensor Protection helps protect your data. If your HD700 suffers a severe shock from being struck, G Shock Sensor Protection automatically starts up and displays a flashing red light. When the shock has passed, a solid or flashing blue light displays indicating normal operation has resumed.

Specifications

Product Code	AHD700-1TU3-CBK
Stock Code	A AHD700-1TU3-CBK
Description	AData HD700-1TU3-CBK External 2.5" 1TB USB 3.0 Portable Hard Disk Drive
Capacity	1TB
Drive Type	External with 256-bit AES encryption
Special Features	Waterproof, Dustproof, Shockproof
Texture	Plastic/Rubber
Power Source	Powered by USB port
Rotational Speed	5400 rpm
Colour	Sport Black
Interface	USB 3.0 (backward compatible with USB2.0)
Operating Temperature	5-50 degreesC / 41-121 degreesF
Dimensions (L x W x H)	133 x 88 x 22mm
Weight	220g / 7.8oz
System requirements	Windows XP / Vista / 7 / 8 / 8.1 / 10
	Mac OS X 10.6 or later
	Linux Kernel 2.6 or later
