USB Type-C charging and a 3.5mm AUX input provide flexible listening options with compatible devices. Buy the SonicGear Airphone 5 Cloud headphones online today for convenient wireless audio at home, at work or on the move.

Overview Summary

SonicGear Airphone 5 Cloud Bluetooth Headphones

The SonicGear Airphone 5 Cloud is a wireless over-ear headphone designed for everyday audio entertainment, communication and portable listening. Its 40mm dynamic drivers deliver stereo sound with enhanced bass, while Bluetooth 5.4 provides wireless connectivity with compatible smartphones, tablets, laptops and other Bluetooth-enabled devices.

Enjoy up to 20 hours of music playback at 50% volume from the built-in 200mAh rechargeable battery. The foldable design makes the headphones easier to carry and store, while the adjustable headband and cushioned earcups support comfortable everyday use. A built-in microphone allows hands-free calls, and the 3.5mm AUX input offers an alternative wired listening option for compatible devices.

Performance tier:Entry-level to mid-range everyday wireless audio

Uses:Music listening, video streaming, online calls, remote work, studying, commuting, travel, casual gaming, home entertainment

Description

The SonicGear AIRPHONE5CLOUD Airphone 5 Cloud Bluetooth Headphones combine wireless convenience, everyday comfort and versatile audio connectivity in a foldable over-ear design. Suitable for listening at home, working at a desk or enjoying entertainment while travelling, these headphones provide a practical audio solution for compatible Bluetooth-enabled devices.

The 40mm dynamic drivers are designed to deliver clear stereo audio with enhanced bass for music, films, videos and other everyday listening applications. With a stated frequency response of 20Hz to 20kHz, the headphones cover a broad range of audio frequencies for general entertainment and communication.

Bluetooth 5.4 wireless connectivity allows compatible devices to connect without a physical audio cable. The headphones offer a wireless operating range of up to 15 metres under suitable conditions, providing flexibility when listening to music or participating in calls. Actual wireless range may vary depending on obstacles, interference and the connected device.

The integrated 200mAh rechargeable battery supports up to 20 hours of music playback at 50% volume. Charging takes approximately 2 hours, and the USB Type-C charging interface provides a convenient way to recharge the headphones using a compatible USB power source.

For added versatility, the 3.5mm AUX input allows wired audio playback with compatible devices. This is useful when a wired connection is preferred or when connecting to equipment with a compatible analogue audio output. The built-in microphone supports hands-free calls, while the foldable construction makes the headphones easier to pack away between uses.

Whether you need wireless headphones for music, online meetings, video streaming or general daily use, the SonicGear Airphone 5 Cloud offers a combination of Bluetooth connectivity, rechargeable power and wired audio support in one portable headset.

Features

The SonicGear Airphone 5 Cloud is designed for flexible everyday listening, with wireless connectivity, rechargeable power and practical portability.

- Bluetooth 5.4 connectivity: Connect wirelessly to compatible smartphones, tablets, laptops and other Bluetooth-enabled devices.
- 40mm dynamic drivers: Deliver stereo audio with enhanced bass for music, films and general entertainment.
- Up to 20 hours of playback: Enjoy extended music listening at 50% volume on a full battery, depending on usage conditions.
- Built-in microphone: Supports hands-free voice calls with compatible connected devices.
- Wireless operating range up to 15m: Provides flexibility to move around while connected, subject to the surrounding environment.
- 200mAh rechargeable battery: Provides built-in power for portable wireless listening.
- USB Type-C charging: Offers a convenient charging connection using a compatible USB power source.
- 3.5mm AUX input: Supports wired audio playback with compatible devices and a suitable audio cable.
- Foldable construction: Helps reduce storage space when the headphones are not in use.
- Adjustable headband: Allows the fit to be adjusted for everyday listening comfort.
- Over-ear design: Cushioned earcups provide a comfortable headphone fit for general listening sessions.
- Wireless and wired listening: Choose Bluetooth audio or a compatible 3.5mm wired connection according to your needs.

FAQ**Are the SonicGear Airphone 5 Cloud headphones wireless?**

Yes. They support Bluetooth 5.4 wireless connectivity with compatible devices. They also include a 3.5mm AUX input for wired audio playback.

How long does the SonicGear Airphone 5 Cloud battery last?

The built-in 200mAh rechargeable battery supports up to 20 hours of music playback at 50% volume. Actual battery life depends on volume, usage and connection conditions.

How long does it take to charge the SonicGear Airphone 5 Cloud?

ComX Computers

Product Specification Sheet

The stated charging time is approximately 2 hours using a suitable USB Type-C charging connection and compatible power source.

Are these headphones compatible with Android and Apple devices?

They can connect to Android smartphones, compatible Apple devices, tablets and computers that support Bluetooth audio. Wired playback is also possible with devices that have a compatible 3.5mm audio output.

Can the SonicGear Airphone 5 Cloud be used for phone calls?

Yes. The built-in microphone supports hands-free calls when connected to a compatible smartphone or other supported device.

Can these headphones be used without Bluetooth?

Yes. The 3.5mm AUX input provides a wired listening option when connected to a compatible audio source using a suitable 3.5mm audio cable.

What is the wireless range of the SonicGear Airphone 5 Cloud?

The stated wireless operating range is up to 15 metres. The effective range may be reduced by walls, obstacles, wireless interference and the connected device.

Are the SonicGear Airphone 5 Cloud headphones suitable for travel?

Yes. The foldable design makes the headphones easier to pack and store, while the rechargeable battery supports extended listening away from a power source.

Do the SonicGear Airphone 5 Cloud headphones have a built-in microphone?

Yes. The built-in microphone supports voice calls and hands-free communication with compatible connected devices.

What devices can connect to the SonicGear Airphone 5 Cloud?

Compatible Bluetooth-enabled smartphones, tablets, laptops and other audio devices can connect wirelessly. Devices with a compatible 3.5mm audio output can use the wired connection.
