Buy the SonicGear Airphone 7 Navy headphones online today for convenient personal audio in South Africa.

Overview Summary

SonicGear Airphone 7 Navy Bluetooth Headphones

The SonicGear Airphone 7 is a wireless over-ear headphone designed for everyday music listening, calls and portable entertainment. Bluetooth 5.3 provides wireless connectivity, while the 40 mm dynamic drivers reproduce audio across a

frequency response of 20 Hz to 20 kHz. The built-in microphone supports hands-free communication, making these headphones suitable for use with compatible smartphones, tablets and computers.

The built-in 200 mAh rechargeable battery provides up to 20 hours of playback at 70% volume, with an approximate charging time of 2 hours using the USB Type-C charging connection. A wireless operating range of up to 15 m provides flexibility when listening away from a connected device. The foldable construction helps make storage and transport easier, while the navy finish offers a versatile everyday style.

Performance tier: Entry-level everyday wireless headphones

Uses: Music listening, smartphone audio, hands-free calls, online meetings, laptop audio, studying, commuting, travel and home entertainment

Description

The SonicGear Airphone 7 Navy Bluetooth Headphones combine wireless convenience, practical portability and everyday audio performance in an over-ear design. Designed for users who enjoy music, podcasts, videos and calls throughout the day, these headphones provide Bluetooth 5.3 connectivity and 40 mm dynamic drivers for a balanced listening experience with strong bass and clear sound reproduction.

The built-in microphone makes it convenient to take calls without removing the headphones, provided the connected device supports the required Bluetooth audio functions. With a wireless operating range of up to 15 m, you can enjoy greater flexibility while listening to compatible devices within range.

The integrated 200 mAh rechargeable battery provides up to 20 hours of playback at 70% volume under the stated operating conditions. USB Type-C charging offers a convenient way to recharge the headphones, with an approximate charging time of 2 hours. Actual battery life can vary depending on volume, connection conditions and usage.

The foldable construction makes the Airphone 7 practical for storage in a bag when travelling or commuting. Its navy finish provides a clean, understated appearance suitable for everyday use at home, at work or while studying. Buy the SonicGear Airphone 7 Navy headphones online for convenient wireless audio and hands-free communication.

Features

The SonicGear Airphone 7 combines essential wireless audio features with a portable design for convenient everyday listening.

- Bluetooth 5.3 connectivity: Supports wireless audio connections with compatible Bluetooth-enabled devices.
- 40 mm dynamic drivers: Designed to deliver clear audio reproduction, strong bass and an immersive listening experience.
- Built-in microphone: Supports hands-free calls and voice communication with compatible devices.
- Up to 20 hours of playback: The rechargeable battery provides up to 20 hours of listening at 70% volume under the stated conditions.
- USB Type-C charging: Provides a convenient charging connection, with an approximate charging time of 2 hours.
- Wireless range up to 15 m: Allows listening away from a connected device when environmental conditions permit.
- Foldable design: Helps reduce storage space and makes the headphones easier to carry during travel and commuting.
- Over-ear listening design: Provides an around-ear headphone format for music, videos and everyday audio.
- Wide audio frequency response: The specified 20 Hz to 20 kHz frequency response covers a broad range of audio frequencies.
- Navy finish: Offers a versatile colour suitable for everyday personal audio use.

Bluetooth 5.3 Fast and Steady Performance

More Stable connection, Lower power consumption, wider compatibility, Shorter latency and stronger anti-interference ability cope with all complex devices and environments
