Overview Summary

SonicGear Airphone 8 Espresso Brown Bluetooth Headphones

The SonicGear Airphone 8 is a wireless over-ear headphone designed for everyday listening, work, travel and entertainment. Its 40mm dynamic drivers and strong bass enhancement deliver impactful low frequencies, while the 20Hz to 20kHz frequency response supports a broad range of audio playback. Bluetooth 6.0 provides wireless connectivity with a stated operating range of up to 15m.

Choose between Bass, High Pitch and Vocal EQ modes to adjust the sound to your listening preference. The foldable design, adjustable headband and vegan leather ear cushions make these headphones convenient for daily use and travel. With a built-in rechargeable 300mAh battery, up to 10 hours of playback at 50% volume, USB Type-C charging and a 3.5mm AUX connection, the Airphone 8 supports both wireless and wired listening.

Performance tier: Everyday consumer audio

Uses: Music listening, video streaming, smartphone audio, laptop audio, online calls, home entertainment, commuting, travel, everyday wireless listening

Description

The SonicGear Airphone 8 Espresso Brown Bluetooth Headphones combine wireless convenience, adjustable sound profiles and a foldable over-ear design for everyday audio enjoyment. Finished in Espresso Brown, these headphones offer a distinctive appearance suitable for use at home, in the office or while travelling.

The 40mm dynamic drivers are designed to produce powerful bass alongside clear midrange and high-frequency audio. Strong bass enhancement adds impact to music, while the three selectable EQ modes - Bass, High Pitch and Vocal - allow you to adjust the sound character according to your preference. The 20Hz to 20kHz frequency response covers a broad audio range for music and multimedia playback.

Bluetooth 6.0 enables wireless listening with compatible devices, including smartphones, tablets and computers that support Bluetooth audio. The stated wireless operating range is up to 15m, although actual performance can vary with the environment and connected device. A built-in microphone supports hands-free calls on compatible devices.

For flexibility, the Airphone 8 also supports a 3.5mm AUX wired connection, allowing you to listen through a compatible audio output when you prefer a cable. Its rechargeable 300mAh battery provides up to 10 hours of working time at 50% volume. The USB Type-C charging connection makes recharging convenient, while the foldable construction helps reduce storage space when the headphones are not in use.

Adjustable construction and vegan leather ear cushions are designed to support comfortable everyday wear. Whether you are listening to playlists, watching videos, attending online calls or enjoying entertainment during your commute, the SonicGear Airphone 8 provides a practical combination of wireless connectivity, sound customisation and portability.

Features

The SonicGear Airphone 8 combines everyday listening features with flexible connectivity and a compact, foldable design.

- Bluetooth 6.0 connectivity: Connect wirelessly to compatible smartphones, tablets, laptops and other Bluetooth audio devices.
- 40mm dynamic drivers: Deliver audio with strong bass and a broad frequency response for music and multimedia.

FAQ

What are the SonicGear Airphone 8 Espresso Brown headphones?

The SonicGear Airphone 8 is a pair of wireless over-ear headphones with Bluetooth 6.0, 40mm dynamic drivers, adjustable EQ modes and a foldable design.

Do the SonicGear Airphone 8 headphones support Bluetooth?

Yes. They support Bluetooth 6.0 and can connect to compatible smartphones, tablets, laptops and other Bluetooth audio devices.

Can I use the SonicGear Airphone 8 headphones without Bluetooth?

Yes. The headphones support a 3.5mm AUX wired connection. Connect them to a compatible audio output using the supplied AUX cable.

How long does the SonicGear Airphone 8 battery last?

The built-in 300mAh rechargeable battery provides up to 10 hours of working time at 50% volume. Actual battery life can vary depending on volume and usage.

How do I charge the SonicGear Airphone 8 headphones?

Charge the headphones through the USB Type-C charging connection using the supplied charging cable and a compatible USB power source. The stated charging time is approximately 2.5 hours.

Do these headphones have different sound modes?

Yes. The SonicGear Airphone 8 offers Bass, High Pitch and Vocal EQ modes, allowing you to select a sound profile suited to music, speech and other audio content.

Are the SonicGear Airphone 8 headphones suitable for travel?

Yes. Their foldable design, wireless connectivity and up to 10 hours of playback at 50% volume make them suitable for commuting, travel and everyday listening.

Can I use the SonicGear Airphone 8 for phone calls?

Yes. The headphones include a built-in microphone for hands-free calls with compatible connected devices.

Are the SonicGear Airphone 8 headphones compatible with Android and Apple devices?

They can connect to Android phones, iPhones, tablets and other devices that support compatible Bluetooth audio. Wired use is also possible with devices that provide a compatible 3.5mm audio connection.

Are the SonicGear Airphone 8 headphones noise cancelling?

Active noise cancellation is not listed among the verified features for this model. They use an over-ear design with cushioned ear cups, but should not be purchased on the assumption that they provide active noise cancellation.

What is included with the SonicGear Airphone 8?

The listed package includes the headphones, a 3.5mm AUX audio cable, a USB Type-C charging cable and a user manual.
