

AJX-H-SKC+

Ajax StarterKit Cam Plus & complete starter Alarm kit with Photo verification

Product Overview

Ajax StarterKit Cam Plus & complete starter Alarm kit with Photo verification, Includes Hub 2 Plus Jeweller with Ethernet, Wi-Fi and Dual SIM (4G) connectivity, Features MotionCam detector for Photo verification on Alarm events, DoorProtect Sensor provides opening detection for doors and Windows, HomeSiren delivers loud audible alerts during Alarm events, SpaceControl Remote allows convenient system Control, Expandable system supports up to 200 connected devices, Remote monitoring and Control available via Ajax Mobile and Desktop apps

Specifications

Overview Summary:

Secure your home or office in South Africa with the Ajax StarterKit Cam Plus, a comprehensive wireless alarm system featuring advanced photo verification to instantly confirm alarms. This complete kit includes the Hub 2 Plus with Ethernet, Wi-Fi, and dual SIM connectivity, ensuring reliable protection even if one connection fails.

Equipped with MotionCam sensors for visual confirmation, DoorProtect detectors, and a loud HomeSiren, this system provides peace of mind through real-time monitoring via the Ajax app. Upgrade your security today and buy now to enjoy fast installation and expandable features tailored for modern safety needs.

Performance tier:High-end

Uses:Home security, office protection, intrusion detection, visual alarm verification, remote monitoring

Overview:

Ajax StarterKit Cam Plus Security Overview:

The Ajax StarterKit Cam Plus is a comprehensive wireless alarm system designed to deliver advanced security with instant photo verification and reliable multi-channel communication. This complete kit provides everything required to secure homes or offices, effectively combining intrusion detection with visual confirmation of events. At the heart of this solution lies the Hub 2 Plus Jeweller, which integrates Ethernet, Wi-Fi, and dual SIM (4G) connectivity to ensure seamless operation with automatic failover capabilities.

Product Specification Sheet

By incorporating a MotionCam detector equipped with an integrated camera, the system captures images upon detecting motion. This allows homeowners and monitoring centers to quickly verify alarms before taking action. The kit also includes a DoorProtect sensor for opening detection on doors and windows, alongside a SpaceControl remote for effortless control of the entire setup.

All components communicate securely using Ajax's proprietary Jeweller protocol for control signals and Wings protocol for image transmission. This dual-protocol approach guarantees encrypted, long-range performance while supporting up to 200 expandable devices. Users can manage their security system from anywhere via the dedicated mobile and desktop applications, receiving instant alerts and real-time notifications.

The HomeSiren provides loud audible alarms to deter intruders and alert occupants during critical events, ensuring a robust defense layer alongside visual verification.

Description:

The Ajax StarterKit Cam Plus (Part Number: AJX-H-SKC+) is an all-in-one security solution that prioritizes reliability and clarity. It features the Hub 2 Plus with triple connectivity options including dual SIM support for uninterrupted service, a MotionCam sensor for photo verification to reduce false alarms, and essential accessories like DoorProtect and SpaceControl. This system is built on secure wireless protocols, supports extensive expansion, and offers intuitive remote management through user-friendly apps.

Features:

Key Features:

- Complete wireless alarm kit with integrated photo verification capabilities
- Includes Hub 2 Plus, MotionCam detector, DoorProtect sensor, HomeSiren, and SpaceControl remote
- MotionCam provides instant image verification during any triggered event
- Triple connectivity channels: Ethernet, Wi-Fi, and dual SIM (4G) with automatic failover
- Secure communication using Jeweller protocol for control and Wings protocol for images
- Highly expandable system capable of supporting up to 200 connected devices
- Full remote monitoring and control via the Ajax mobile application
- Instant push notifications and real-time status updates sent directly to users
- Rapid installation process with a user-friendly setup experience
- Ideal for residential homes, offices, and small business environments

Technical Specifications:

- Sku: AJX-H-SKC+
- Product Type: Wireless alarm starter kit including Hub 2 Plus, MotionCam, DoorProtect, HomeSiren, SpaceControl
- Radio Protocol: Jeweller (868.0-868.6 MHz region dependent) and Wings for photos
- Visual Verification: MotionCam photo verification triggered on alarm events
- Connectivity Channels: Ethernet, Wi-Fi, 2 x SIM (4G), automatic failover support
- Maximum Connected Devices: Up to 200 devices supported by the hub

What's in the box

The package contains a Hub 2 Plus Jeweller with Ethernet and Wi-Fi connectivity, one MotionCam detector with built-in camera, one DoorProtect sensor, one HomeSiren for audible alerts, and one SpaceControl remote. This StarterKit Cam Plus ensures you have all necessary components to deploy a fully functional security system immediately upon unboxing.

FAQ**What specific security components are included in the Ajax StarterKit Cam Plus?**

The kit contains a Hub 2 Plus Jeweller, MotionCam detector with built-in camera, DoorProtect sensor for doors and windows, HomeSiren for audible alerts, and SpaceControl remote control.

How does the system ensure connectivity if one internet connection fails?

The Hub 2 Plus supports Ethernet, Wi-Fi, and dual SIM (4G) with automatic failover to maintain uninterrupted protection even if a primary connection method becomes unavailable.

Can I verify alarm events visually without relying solely on sensors?

Yes, the MotionCam detector captures photos upon detecting motion, allowing users and monitoring centers to quickly confirm alarms before responding via photo verification features.

How many additional devices can be added to this wireless system in the future?

The system is expandable and supports up to 200 connected devices, making it suitable for growing security needs or larger properties like offices and small businesses.

What communication protocols ensure secure data transmission between devices?

All devices communicate using Ajax's secure Jeweller protocol for control and the Wings protocol specifically for image transmission, ensuring encrypted and reliable long-range performance.
