About this product

The Targus AMP13EU Laser Presentation Remote is a professional wireless presenter designed for smooth and reliable slideshow control in offices, classrooms, and conference rooms. Featuring 2.4GHz wireless connectivity, an integrated laser pointer, backlit controls, and plug-and-play USB support, this presentation remote helps deliver clear and confident presentations. Buy now from our website for quick delivery in South Africa.

Overview Summary

Targus AMP13EU Laser Presentation Remote

The Targus AMP13EU Laser Presentation Remote is built for business professionals, teachers, trainers, and presenters who need reliable wireless presentation control. Its ergonomic design and intuitive button layout make it easy to navigate slides, activate the laser pointer, and manage presentations with confidence in meeting rooms or lecture halls.

Using 2.4GHz wireless technology, the remote offers freedom of movement up to 15 metres from the connected computer. The integrated USB receiver stores inside the presenter when not in use, while backlit buttons improve visibility in low-light environments. KeyLock Technology helps prevent accidental button presses during important presentations.

The AMP13EU supports plug-and-play functionality with compatible Windows and Mac systems, making setup quick and simple without additional drivers. It is ideal for PowerPoint, Keynote, and other presentation software applications.

Performance tier: Professional presentation remote

Uses: Business presentations, classroom teaching, conference presentations, training sessions, lecture halls, office meetings

Description

The Targus AMP13EU Laser Presentation Remote is designed to deliver reliable wireless presentation control for professional and educational environments. Its compact and ergonomic construction fits comfortably in the hand, allowing presenters to move freely around conference rooms, classrooms, or training venues while controlling slides remotely.

The integrated laser pointer helps presenters highlight important content during presentations, improving audience engagement and visibility. Backlit buttons allow easy operation in darker rooms or low-light presentation spaces, while the simplified button layout ensures intuitive control during live presentations.

Powered by 2.4GHz wireless technology, the remote provides stable connectivity with a wireless range of up to 15 metres. The included USB receiver stores neatly inside the device when not in use, reducing the risk of losing the receiver during travel or transport. The presenter supports plug-and-play installation with compatible Windows and Mac systems, eliminating the need for software drivers.

Targus KeyLock Technology locks non-essential buttons to help avoid accidental presses during presentations. The AMP13EU is suitable for Microsoft PowerPoint, Apple Keynote, and other compatible presentation applications, making it a practical solution for offices, schools, universities, and business professionals.
