Astrum MW20D Black Dual Mode BT + 2.4GHz Wireless 1600 DPI Silent Mouse

Product Overview

Astrum MW20D Black Dual Mode BT + 2.4GHz Wireless 1600 DPI Silent Mouse; up to 10m range; 1 x AA battery; USB nano receiver; USB-A to USB-C adaptor; 116 x 60 x 33mm; Windows, macOS, Linux

Specifications

About this product

The Astrum MW20D Black Wireless Silent Mouse combines dual-mode Bluetooth and 2.4GHz wireless connectivity with adjustable 800, 1200 and 1600 DPI optical tracking for flexible everyday computer control. Its silent buttons help reduce click noise, while plug-and-play operation and a compact design make it suitable for laptops, desktops, home offices and work environments. Buy this Astrum MW20D wireless mouse online for convenient everyday computing in South Africa.

Overview Summary

Astrum MW20D Black Dual Mode Wireless Silent Mouse

The Astrum MW20D is a wireless optical mouse designed for convenient everyday computing. It supports both Bluetooth and 2.4GHz wireless connectivity, allowing compatible devices to connect without a traditional wired mouse cable. The 2.4GHz connection uses a compact USB nano receiver, while the Bluetooth option provides an alternative connection method for compatible devices.

The optical sensor provides selectable 800, 1200 and 1600 DPI settings, allowing the cursor speed to be adjusted for different tasks. Silent left and right buttons help create a quieter working environment, while plug-and-play operation avoids the need for additional driver installation. The mouse is supplied with an AA battery and USB-A to USB-C adaptor for convenient setup.

Performance tier: Everyday wireless computing

Uses: Office work, home computing, laptop use, desktop computing, browsing, document work, study

Description

The Astrum MW20D is a compact black wireless optical mouse designed for users who want flexible connectivity and quieter everyday computer operation. Its dual-mode design supports Bluetooth as well as 2.4GHz wireless connectivity, giving users two practical ways to connect the mouse to compatible computing devices.

ComX Computers

Product Specification Sheet

The 2.4GHz wireless connection uses a USB nano receiver for convenient cable-free operation. A USB-A to USB-C adaptor is included, providing an additional connection option for compatible devices with USB-C ports. The mouse also supports plug-and-play operation, helping users get started without installing dedicated mouse drivers.

Cursor control can be adjusted between 800, 1200 and 1600 DPI using the mouse DPI control. Lower settings can provide more controlled cursor movement, while higher settings allow faster navigation across the screen. The optical sensor is suited to common computing tasks including browsing, document editing and general productivity.

Silent left and right mouse buttons help reduce operating noise, making the MW20D suitable for offices, study areas, shared workspaces and other environments where quieter computer operation is useful. The mouse is powered by one AA battery, which is included with the product, and an automatic sleep function helps reduce unnecessary power use when the mouse is idle.

Features

The Astrum MW20D combines flexible wireless connectivity, adjustable cursor control and quieter operation in a practical design for everyday computing.

- Dual-mode connectivity: Connect using Bluetooth or 2.4GHz wireless technology.
- Adjustable DPI: Select between 800, 1200 and 1600 DPI for different cursor-control requirements.
- Silent buttons: Left and right buttons are designed for quieter clicking during everyday use.
- Optical tracking: Provides responsive cursor control for common computer tasks.
- Wireless range: The wireless connection supports a range of up to 10 metres.
- USB nano receiver: The compact receiver provides 2.4GHz wireless connectivity.
- USB-C adaptor: The included USB-A to USB-C adaptor provides compatibility with suitable USB-C devices.
- Plug and play: Designed to operate without dedicated driver installation.
- Power saving: Auto-sleep functionality helps reduce battery use while the mouse is idle.
- Battery included: The mouse includes 1 x AA battery for convenient setup.

Ready to Use Straight Out of the Box

Most wireless mice do not include a battery. The Astrum MW20D does. Open the box, insert the included AA battery, plug in the nano receiver or connect via Bluetooth - and you are working in under a minute. No extra purchase. No frustration.

Dual Mode - Bluetooth or 2.4GHz Wireless

Two ways to connect, zero cables. Bluetooth pairs directly with your laptop, tablet, or phone with no receiver needed. 2.4GHz wireless via the included USB Nano Receiver provides a stable, low-latency connection up to 10 metres. The included USB-A to USB-C adaptor also lets the nano receiver work with modern USB-C laptops straight out of the box.

Silent Buttons - Work Without the Noise

Silent left and right click buttons reduce click noise significantly compared with standard mouse switches. Ideal for open offices, shared bedrooms, online meetings, libraries, and quiet workspaces.

800 / 1200 / 1600 DPI - Your Speed, Your Control

Three DPI settings let you adjust cursor speed at the press of the DPI switch button. Use 800 DPI for precision document work, 1200 DPI for everyday navigation, and 1600 DPI for faster movement across large or dual-monitor setups. The optical sensor tracks accurately on most flat surfaces.

Plug & Play - No Drivers

Works instantly with Windows, macOS, and Linux with no driver installation required. Power-saving auto-sleep mode helps extend battery life.

What's in the Box

- 1 x Astrum MW20D wireless optical mouse

ComX Computers

Product Specification Sheet

- 1 x 2.4GHz USB nano receiver
- 1 x USB-A to USB-C adaptor
- 1 x AA battery
- 1 x User guide
