Specifications

About this product

The Astrum MW30C Tri-Mode Wireless Mouse (AMSW30RB) provides flexible multi-device control with Bluetooth 5.0 and a 2.4GHz USB Nano Receiver, allowing connection to up to three devices. With a 1600 DPI optical sensor, rechargeable Lithium-Ion battery, USB-C charging, silent left and right clicks, 6 buttons, metal scroll wheel and RGB accent lighting, it is designed for comfortable everyday work, browsing and productivity. Buy this Astrum rechargeable wireless mouse online for a practical multi-device solution.

Overview Summary

Astrum MW30C Tri-Mode Wireless Mouse - 1600 DPI, Bluetooth 5.0 and USB Receiver

The Astrum MW30C is a rechargeable wireless mouse designed for users who work across multiple computers and devices. It supports two Bluetooth 5.0 connections plus one 2.4GHz USB Nano Receiver connection, allowing up to three devices to be paired. A dedicated switching button makes it convenient to move between connected devices.

The 1600 DPI optical sensor provides accurate cursor control for everyday computing, while silent left and right buttons help reduce clicking noise in shared workspaces. The built-in Lithium-Ion battery can be recharged through USB-C, while the metal scroll wheel and RGB accent strip add practical functionality and a modern finish. The mouse supports Windows, macOS and Linux and is designed for plug-and-play use.

Performance tier:Everyday productivity

Uses:Office work, home computing, browsing, documents, spreadsheets, multi-device setups, laptop use, desktop computing

Description

The Astrum MW30C is a versatile tri-mode wireless mouse designed for convenient control across multiple devices. Its connectivity system supports two Bluetooth 5.0 connections and one 2.4GHz USB Nano Receiver connection, providing a practical three-device setup for users who regularly move between computers, laptops and other compatible devices.

A dedicated switching button allows the user to change between connected devices without repeatedly pairing the mouse. This makes the MW30C suitable for modern workspaces where more than one computer or device is used throughout the day.

For precise everyday navigation, the mouse features a 1600 DPI optical sensor with on-the-fly DPI switching. The six-button design provides additional control, while silent left and right buttons help create a quieter working environment in offices, classrooms and shared spaces.

The built-in rechargeable Lithium-Ion battery eliminates the need for disposable batteries and charges through USB-C. The mouse also features a metal scroll wheel and RGB accent strip for a modern appearance. Plug-and-play operation provides straightforward setup, with compatibility for Windows, macOS and Linux.

Features

The Astrum MW30C combines flexible wireless connectivity, rechargeable power and precise optical tracking in a compact design suited to everyday computing.

- Tri-mode wireless connectivity for up to three connected devices
- Bluetooth 5.0 supports two device connections
- 2.4GHz wireless connection through the USB Nano Receiver
- Dedicated button for switching between connected devices
- 1600 DPI optical sensor for accurate everyday cursor control
- On-the-fly DPI switching for adjustable cursor movement

ComX Computers

Product Specification Sheet

- Built-in rechargeable Lithium-Ion battery
- USB-C charging for convenient recharging
- Silent left and right click buttons for reduced operating noise
- 6-button design for additional control
- Metal scroll wheel for a durable tactile feel
- RGB accent strip for a modern appearance
- Plug-and-play operation without requiring drivers
- Compatible with Windows, macOS and Linux

Three Devices. One Mouse. Switch in a Second.

The Astrum MW30C is built for modern multi-device work. Pair two computers or tablets via Bluetooth 5.0, then connect a third device using the included 2.4GHz USB Nano Receiver. A dedicated button on the underside lets you switch between all three instantly - no re-pairing, no delays, no workflow interruption.

Bluetooth + 2.4GHz - Three-Device Connectivity

Use Bluetooth 5.0 to pair with two devices, then use the 2.4GHz USB Nano Receiver for a third. Switch between your laptop, desktop, tablet, or other compatible device with one button, making it ideal for hybrid work, multi-screen setups, and users who move between devices throughout the day.

Rechargeable USB-C Battery

No disposable batteries required. The built-in Lithium-Ion battery recharges via USB-C, helping reduce battery waste while keeping the mouse ready for everyday use. A USB-A to USB-C adaptor and charging cable are included in the box for added convenience.

Precision, Feel, and Quiet Control

The 1600 DPI optical sensor delivers smooth and accurate tracking for everyday work, browsing, documents, and spreadsheets. On-the-fly DPI switching lets you adjust cursor speed when needed, while silent left and right click buttons reduce noise in offices, classrooms, and shared spaces.

Metal Scroll Wheel + RGB Accent

A durable metal scroll wheel gives the MW30C a more premium feel in daily use. The RGB LED accent strip adds a modern visual touch, while plug-and-play operation means no drivers or software are required.

What's in the Box

- 1 x Astrum MW30C wireless mouse
- 1 x 2.4GHz USB Nano Receiver
- 1 x USB-C charging cable
- 1 x USB-A to USB-C adaptor
