AOC-20E1H/73

AOC 20E1H/73 19.5" WLED Monitor

Product Overview

AOC 20E1H/73 19.5" WLED Monitor, Aspect Ratio: 16:9, Resolution: 1600x900, Pixel Pitch: 0.3mm, Brightness(Max): 200 cd/? Contrast Ratio Static: 600:1, Contrast Ratio Dynamic: 20M:1, Response time: 5ms, Viewing Angle (CR >= 10): 90/50, Colours: 16.7 Million Power Supply: Built- in, Signal Input: D-Sub, HDMI Vesa Wall mount: 100x100, Kensington lock accepted

Specifications

Overview:

Work comfortably and efficiently with this compact 19.5" monitor, featuring a desk-friendly cable management design, VESA mount for operational flexibility, multiple connectivity options (HDMI and VGA), e-Saver low power configuration, and more. This display also comes with Low Blue Mode and Flicker-Free eye protection to keep your eyes safe during those longer work sessions.

Features:

Low Blue Mode
AOC Low Blue Mode filters harmful short-wave blue light, with 4 levels that suit different viewing situations.

Flicker Free Backlight Technology
Most LED monitors use PWM (pulse width modulation) to control brightness; the pulsing creates flicker that may cause discomfort, headaches and eye strain, especially in low-light environments. Flicker Free technology uses a smooth DC (directcurrent) backlight system.

Clear Vision
The image performance engine can upscale Standard Definition(SD) sources to High Definition (HD) for sharper, more vivid viewing.

Multimedia-Ready with HDMI Input
HDMI (High-Definition Multimedia Interface) is the digital video and sound standard for connecting the latest consumer electronics like Blu-ray players and game consoles.

Screen+
The bundled Screen+ software splits the PC workspace intofour self-contained panes to group application windows for easier

viewing. Screen+ also supports multiple monitors.

e-Saver
Software enables the user to set a low power configuration of the monitor when the PC is in screen saving, PC off, and user absence. User can choose the time to turn the monitor off, to save power consumption.

i-Menu
Included PC software allows the user to change the OSD settings using their mouse.
