AOC G2460VQ6 23.8" Full HD Gaming Monitor

Product Overview

AOC G2460VQ6 23.8" Monitor, 1920x1080@75Hz, 1ms response, AMD FreeSync, Anti-Bluelight, DCR 80M:1, VGA, HDMI, DP

Specifications

Overview:

The AOC G2460VQ6 display delivers non-stop action for thrill-seeking gamers. The quick one millisecond response time makes this monitor a real standout, eliminating ghosting and motion blur for fast-paced games and movies. Integrated VGA, HDMI and DisplayPort connectors let you hook up multiple devices like your computer and game console at the same time. For long hours behind the screen, the G2460VQ6 also features AOC's advanced Anti-Blue Light technology to reduce eyestrain and increase your viewing comfort, whether you're role-playing, racing or creating a virtual world. This monitor is compatible with all the graphic cards in the market, but if you are an AMD Radeon™ user, the G2460VQ6 is compatible with AMD FreeSync™ technology* to eliminate tearing, stuttering and input lag.

Features:

Adaptive Sync
Whatever your setup, achieve the highest framerate and smoothest display possible via AMD Free-Sync Technology. Whether you're dashing through explosions or screeching around rain slicked bends, wave goodbye to screen tearing and lag - and leave your opponents in your smoothly rendered dust.
