Product Specification Sheet

AS-GTX950-DC2OC-2GD5

Asus Strix Geforce GTX950 2Gb/2048mb DDR5 128bit Graphics Card

Product Overview

Asus Strix-GTX950-DC2oC-2GD5, DirectCU 2(ii) with dual fan design + back-sided heatsink + 10mm copper heatpipes, support 0dB silent mode, DIGI+ VRM with 6-phase Super Alloy Power, Geforce GTX950, 28nm, 3-way SLi support, PCI-E 3.0 16x, support Adaptive Vertical Sync, support 4xdisplay, FXAA+TXAA; 2Gb/2048mb DDR5 128bit, RoPs: 32, 106Gb/sec memory transfer, 768 cuda cores (pixel shader engine + vertex pipelines), 1573GFLoPS, 49.2GTexels/Sec, 48x TMUs, core clock: 1140/1355mhz; memory: 6610mhz, 2x dvi + HDMi +DP

Specifications

Overview:

ASUS STRIX GTX 950 gaming graphics cards packed with exclusive ASUS technologies, including DirectCU II with Dual Wing-Blade 0dB Fan Design for maximum air flow with 20% cooler and 3X quieter performance. This card features exclusive ASUS AUTO-EXTREME Technology with Super Alloy Power II for premium quality and best reliability. It also has GPU Tweak II with Xsplit Gamecaster, provides intuitive performance tweaking and lets you stream your gameplay instantly.

Features:

BLAZING-FAST. ARMOR-PROTECTED. SUPER-COOL.
Taken from the ancient Roman and Greek word for owl, Strix means the keenest hearing and sharpest eyesight. Strix means feeling your environment so that you detect and react to the slightest movement. Strix means survival on the very edge of instinct. Strix is in your blood, as it is in ours.

DirectCU II with 10mm Heatpipe
Exclusive DirectCU II cooling technology outperforms reference designs with an exclusive 10mm heatpipe that transports 40% more heat away from the GPU - a first for the industry! The design also includes 2.8X-larger heat-dissipation: this means performance that's 20% cooler three-times (3X) quieter than reference for ultra-stable hardcore gaming with very low noise.

Dual Wing-blade 0dB Fan Design
DirectCU II features dual 0dB fans engineered with a patented, new wing-blade design that delivers maximum air flow and improved 105% static pressure over the heat sink, while operating at 3X quieter volumes than reference cards. The 0dB fans also let you enjoy games like League of Legends® and StarCraft® in complete silence - because the fan stops completely when the GPU temperature remains below a set level*.

PREMIUM QUALITY AND BEST RELIABILITY
All ASUS graphics cards are now produced using AUTO-EXTREME Technology, an industry-first, 100% automated production process that incorporates premium materials to set a new standard of quality. AUTO-EXTREME Technology ensures consistent graphics card quality as well as improved performance and longevity. This new manufacturing process is also environmentally friendly, eliminating harsh chemicals and reducing power consumption by 50%.

5-phase Super Alloy Power II
ASUS engineers have integrated premium components into their graphics card designs to reinforce overall reliability. Super Alloy Power II components greatly enhance efficiency, reduce power loss, provide 2X reduced component buzzing while under full load, and achieve thermal levels that are approximately 50% cooler than previous designs.

GPU Tweak II with XSplit Gamecaster
Redesigned with an intuitive, all-new UI, GPU Tweak II makes overclocking easier and more visual than ever, while still retaining advanced options for seasoned overclockers. With one click, the new Gaming Booster function maximizes system performance by removing redundant processes and allocating all available resources automatically. XSplit Gamecaster lets you easily stream or record your gameplay right from a convenient, in-game overlay.

Gaming Booster

- Visual effects: Boost your performance by turning off windows visual effects.
- System Services: Automatically or manually turn off windows services or process.
- Memory Defragmentation: Re-arrange & free your system memory without closing any processes.

Specifications	
Product Code	AS-GTX950-DC2OC-2GD5
Graphics Engine	NVIDIA GeForce GTX 950
Bus Standard	PCI Express 3.0
OpenGL	OpenGL 4.5
Video Memory	GDDR5 2GB
Engine Clock	OC Mode - GPU Boost Clock : 1355 MHZ, GPU Base Clock : 1165 MHz
	Gaming Mode (Default) - GPU Boost Clock : 1329 MHZ, GPU Base Clock : 1140 MHz
CUDA Core	768
Memory Clock	6610 MHz
Memory Interface	128-bit
Interface	DVI Output : Yes x 1 (Native) (DVI-I), Yes x 1 (Native) (DVI-D)
	HDMI Output : Yes x 1 (Native) (HDMI 2.0)
	Display Port : Yes x 1 (Native) (Regular DP)
	HDCP Support : Yes
Power Consumption	up to 150W1 additional 6 pin PCIe power required
Accessories	1 x STRIX Laser Sticker

Software	ASUS GPU Tweak II & Driver
Dimensions	8.7 " x 4.9 " x 1.6 " Inch
	22 x 12.5 x4 Centimeter
