ADATA 16GB S102 Grey USB 3.0 Flash Drive

Product Overview

ADATA 16GB S102 Grey USB 3.0 Flash Drive - Supports USB 3.0, backward compatible with USB 2.0, Dimensions 71.8 X 18.6 X 10.6mm.

Specifications

Overview:

A-DATA's Superior Series S102 USB 3.0 flash drive delivers a perfect blend of performance, style and value in a portable form factor that fits virtually anywhere. The industry's first to incorporate a native controller chip for flash products, the S102 delivers blazing-fast read and write performance at an extremely competitive price. Complete with textured aluminum casing with titanium metal color for an attractive look, these USB 3.0 flash drives give you an undeniable reason to upgrade, and say an official goodbye to USB 2.0. The S102 is available in storage capacities from 8GB to 32GB, providing great value for your speed experience.

Features:

Say Goodbye to USB 2.0
The USB 3.0 interface is becoming increasingly popular in the market, and we are listening to the voices of the early adapters who are eager to see this new standard incorporated into a wide range of products. This launch introduces the S102 USB 3.0 flash drive, which uses the native USB 3.0 controller chip, at an extremely competitive price. So stop watching USB 3.0 from the sidelines. The S102 gives you an undeniable reason to upgrade, and say an official goodbye to USB 2.0.

Fire up the Power of USB 3.0
The S102 has read speeds of up to 68 MB per second, and write speeds of up to 30MB, which is much more efficient than traditional USB 2.0 speeds. With nearly twice the read performance, you will ride the cutting-edge technology in all data transfer applications. Note: For built-in USB 3.0 slots, the actual transmission speed will vary according to the platform, software, and technical differences. (Test results shown are based on a 32 GB product).

Titanium Grey Enhances your Dignified Style
In appearance, the textured aluminum casing sets off the titanium metal color of the drive. The crafted exterior incorporates both scientific and technological elements to present an appealing look. The cap can be conveniently clipped onto the back of the casing when the drive is in use, preventing loss. The S102 is available in storage capacities from 8GB to 32GB, providing great value for your speed experience.

Smart Power: The Means for Total Protection

Known for being top quality, with their remarkable performance and innovative designs, ADATA portable hard disk drives have more than "hard power" to offer, notably the most valuable software.

- The OStoGO tool assists you by converting your Microsoft Windows 7 Installation DVD to an ADATA portable storage device, providing you the convenience of being able to quickly install Windows 7 via USB booting without the need for an optical drive.
- The powerful UFDtoGo tool synchronizes data, e-mails and your Favorites, affording you true mobility.
- Norton Internet Security 2012 (60-day trial) safeguards your data from viruses and other harmful processes. Registering your ADATA product online gives you this protection for free.
