About this product

The **Astrum G05 Smart Glasses ASMG05B** combine everyday eyewear with Bluetooth audio, open-ear stereo speakers and hands-free calling. With touch controls on both temples, blue light filtering lenses, a lightweight TR90 frame and magnetic charging, these smart glasses provide convenient audio and call control without blocking ambient sound. Buy now from our website and enjoy practical smart eyewear for work, commuting and everyday use.

Overview Summary

Astrum G05 Smart Glasses - Bluetooth Audio Eyewear

The Astrum G05 Smart Glasses are designed to combine familiar eyewear with convenient wireless audio. Built-in open-ear stereo speakers allow you to listen to music and podcasts or handle phone calls without wearing traditional earbuds, while still allowing ambient sounds to remain audible.

The glasses feature touch controls on both temples for managing calls, music and voice assistant access. Blue light filtering lenses are suited to users who spend time working with screens, while the lightweight TR90 frame is designed for comfortable extended wear. Bluetooth BLE 5.3 connectivity, automatic device pairing and magnetic charging make the G05 practical for everyday use.

Performance tier: Everyday smart audio eyewear

Uses: hands-free calls, music listening, podcasts, office work, work from home, commuting, everyday wear, voice assistant access

Overview

The Astrum M01 Smart Glasses combine everyday eyewear with built-in Bluetooth audio, allowing you to listen to music and take calls without earbuds. Featuring open-ear speakers, touch controls, and magnetic charging, they are designed for comfortable office and daily use while keeping you aware of your surroundings.

Description

The Astrum G05 Smart Glasses ASMG05B provide a practical way to add wireless audio and hands-free calling to everyday eyewear. The open-ear stereo speaker design delivers audio directly from the glasses without requiring earbuds, helping users remain aware of surrounding sounds while listening.

Bluetooth BLE 5.3 provides wireless connectivity with compatible smartphones and tablets, while automatic pairing helps simplify everyday setup. Touch controls positioned on both temples provide convenient access to music, calls and voice assistant functions without needing to handle the connected device.

The G05 uses a lightweight TR90 construction across the lenses, frame and temples. Blue light filtering lenses are designed for users who spend time looking at digital screens, making the glasses suitable for office work, study and general daily use. When the integrated batteries require charging, the supplied magnetic charging cable provides a convenient charging connection.

Features

The Astrum G05 combines smart audio functions with conventional eyewear in a lightweight design intended for everyday use.

- Bluetooth audio: Connect compatible smartphones and tablets for wireless audio.
- Open-ear stereo speakers: Listen to music, podcasts and calls without inserting earbuds into your ears.
- Hands-free calling: Take and manage calls directly through the smart glasses.

ComX Computers

Product Specification Sheet

- Touch controls: Touch controls on both temples provide access to music, calls and voice assistant functions.
- Voice assistant access: Activate the voice assistant on a compatible connected smartphone.
- Blue light filtering lenses: Designed for users who spend time working with digital screens.
- TR90 frame: Lightweight TR90 material is used for the lenses, frame and temples.
