Overview Summary

Astrum SPU12T 12W 2.0CH USB and Bluetooth Soundbar

The Astrum SPU12T is a compact 2.0-channel soundbar designed to provide clear stereo audio without taking up much desk or shelf space. Its 12W RMS output is delivered through dual 6W drivers, providing a practical audio solution for everyday music, movies, videos, gaming and general computer use.

The soundbar supports Bluetooth 5.3 for wireless audio streaming and uses USB-A for 5V power. Its compact design makes it suitable for desktops, laptops and smaller entertainment setups, while the built-in controls provide convenient access to volume, playback and mode functions. Compatibility includes PCs, laptops, smartphones and tablets.

Performance tier:Entry-level multimedia soundbar

Uses:desktop audio, laptop audio, music, movies, videos, casual gaming, smartphone audio, tablet audio

Overview

The Astrum SPU12T is a compact 2.0-channel sound bar designed to bring clear, punchy stereo sound to your desktop, laptop, or TV setup. With 12W RMS total output and dual passive drivers in a slim 50 cm frame, it strikes a balance between space-saving convenience and surprisingly full Audio-Ideal for music, movies / everyday media. Its USB and Bluetooth connectivity let you power and stream from virtually any device, making it plug-and-play without the fuss of bulky systems or extra power bricks. Thanks to its lightweight build and minimalist design, the SPU12T easily fits under a monitor or TV, giving your setup an instant audio upgrade. Whether you're enhancing your workspace sound or upgrading a modest room system, this sound bar offers budget-friendly stereo output with solid versatility and ease of use.

Description

The Astrum SPU12T is a compact 2.0-channel multimedia soundbar designed to provide convenient stereo audio for everyday devices. With a total output of 12W RMS, the soundbar uses two 6W channels to provide clear audio for music, movies, videos, gaming and general computer use.

Wireless audio streaming is supported through Bluetooth 5.3, allowing compatible smartphones, tablets, laptops and other Bluetooth devices to connect without a physical audio connection. The soundbar also uses USB-A with a 5V power input, making it suitable for USB-powered desktop and computer setups.

The compact design is well suited to desktops and smaller entertainment areas where space is limited. A 1.3m cable provides flexibility when positioning the soundbar, while the integrated controls provide convenient access to volume, playback and mode functions.

With its combination of 12W RMS stereo output, Bluetooth 5.3, USB power and broad device compatibility, the Astrum SPU12T provides a straightforward audio solution for home offices, workspaces and everyday entertainment.

Features

The Astrum SPU12T combines compact construction with practical connectivity and stereo audio output for everyday multimedia use.
