Product Overview

Asus P516 ROG Strix Impact II Moonlight White USB 2.0 Mouse, Optical Sensor, 6200 dpi Resolution, 220 IPS Maximum speed, 30g Maximum acceleration, 1000 Hz USB report rate, 1 dpi button+ 5 programmable buttons, Aura Sync, Ambidextrous, Claw grip

Specifications

Overview:

ROG Strix Impact II Moonlight White
Ambidextrous style ergonomics gaming mouse featuring 6,200-dpi optical sensor, push-fit switch-socket and Aura Sync RGB lighting

- Lightweight build and ambidextrous style ergonomics co-designed with pro gamers for optimal performance.
- Pivoted button mechanism for fast response and accurate performance, accompanied by a clean, tactile feel.
- Fast, smooth and flexible glides with lightweight, soft-rubber cable.
- 6,200 dpi optical sensor with four-level DPI switch for sensitivity adjustment.
- On-the-fly DPI button for effortless accuracy adjustments.
- Exclusive push-fit switch socket design to easily vary click resistance and extend the lifespan of the mouse.
- ASUS Aura RGB illumination and compatibility with the Aura Sync ecosystem.

Features:

ROG STRIX IMPACT II - MOONLIGHT WHITE
The ROG Strix Impact II Moonlight White is a lightweight gaming mouse with ambidextrous style that delivers smooth action and superb flexibility. It features pivoted buttons and a soft-rubber cable for fast, tactile clicks and unhindered glides. Its 6,200 dpi sensor ensures pinpoint accuracy and its exclusive, push-fit switch socket design extends lifespan. In addition, a four-level adjustable DPI switch makes it easy to vary sensitivity to match the way you play.

PRECISE AND ACCURATE SIDEARM
We collaborated with professional gamers in designing the ROG Strix Impact II Moonlight White. The result is a mouse with ambidextrous style and optimized for performance and comfort, weighing a mere 79 grams. The 6,200 dpi sensor tracks at up to 220 inches per second (ips), and a 1000 Hz polling rate ensures high precision, fast response and accurate control - all without a hint of lag. The Impact II Moonlight White even includes five programmable buttons, allowing you to tailor control for

your style of play.

PIVOTED BUTTON MECHANISM
Shorter travel means quicker clicks - so our engineers equipped the ROG Strix Impact II Moonlight White with pivoted buttons. The mechanism utilizes springs and metal hinges to balance the keys and minimize the distance between buttons and switches. The upshot is minimal travel and rapid return, ensuring superb speed, responsiveness and consistency with every click.

DYNAMIC RGB LIGHTING
The ROG Strix Impact II Moonlight White shines from top to tail. Aura RGB lighting is integrated into the logo, scroll wheel and front, and the leading LEDs project forward like headlights to illuminate your battlefield. The lighting can be customized using a near-endless spectrum of colors and a range of dynamic effects, and up to three profiles can be stored onboard so you can take your preferences anywhere.

- Static
- Breathing
- Reactive
- Color Cycle

MINIMALIST LOOK, - MAXIMUM IMPACT
The new Moonlight White product series offers a range of new devices with a clean aesthetic. Arm yourself with the Moonlight White editions of the ROG Strix Scope NX TKL keyboard, Strix Impact II optical-sensor mouse, Strix Go Core headset, Cetra II Core in-ear headphones, and the Zephyrus G14 and G15 gaming laptops.
