Product Overview

Asus ROG Strix Scope RGB Wired Mechanical Gaming Keyboard USB, Cherry MX switches., Additional FPS keycaps, Aluminum Frame, Aura Sync Lighting, Additional Silver WASD for FPS games

Specifications

Overview:

ROG Strix Scope RGB wired mechanical gaming keyboard with Cherry MX switches, aluminum frame, Aura Sync lighting and additional silver WASD for FPS games

- Great for FPS games : 2X wider, ergonomic Xccurate Ctrl key means fewer missed clicks for greater FPS precision
- Quick-toggle switch: Instantly shift between function and media key input
- Stealth key: Tap to hide all apps and mute audio for instant privacy; tap again to play on
- Cherry MX switches: German-made, micro-switched actuators for precision input with tactile feedback
- Durable construction: Aluminum top plate with striking slash aesthetic for everyday resilience with a dash of style
- Unlimited customization: Aura Sync RGB LED technology for unlimited personalization options
- Macros, management and memory: Quickly map command sequences to selected keys, adjust settings with enhanced Armoury II software, and store profiles using onboard memory

Features:

BUILT FOR ACTION

Extend your battlefield prowess with ROG Strix Scope, the mechanical gaming keyboard with Xccurate Design - an extra-wide Ctrl key for FPS precision. Enjoy colorful RGB Aura Sync backlighting, hit the Quick-Toggle Switch for work or play, and push the Stealth key for instant privacy. The keyboard is even finished with an aluminum faceplate for everyday resilience with a touch of style. Power to victory, with the power of ROG Strix Scope.

BUILT FOR FPS GAMERS

The world-class ROG R&D team scrutinized the play style of FPS gamers, applying their findings to create a key that's more than 2X broader than traditional Ctrl buttons. The result is Xccurate Design: the extra-wide Ctrl key for fewer missed clicks and greater precision. The keyboard also comes with four silver-hued keycaps for easy identification of the WASD control group, and even includes a keycap-puller tool for easy customization.

READY FOR WORK OR PLAY

The Quick-Toggle Switch prepares ROG Strix Scope for gaming or the daily grind, toggling the top row between Media or Function (Fn) key input - so it's easy to switch modes for work or play. The keyboard is topped with an aluminum faceplate for everyday resilience, and finished with a striking slash aesthetic for a little touch of style.

INSTANT PRIVACY

A quick tap of ROG Strix Scope's Stealth key instantly hides all apps and mutes all audio, assuring privacy the moment you need it. Decorated with an iconic cloaked-figure motif, a second push of Stealth puts everything back to just the way it was.

CHERRY MX RGB - MECHANICAL SWITCHES

Constructed with Cherry MX RGB switches, ROG Strix Scope delivers the precise mechanical feel preferred by gamers and enthusiasts alike. The premium-quality switches are manufactured in Germany, and are renowned for offering optimal actuation and responsiveness with every keystroke.

AURA SYNC

Vibrant per-key backlighting illuminates Strix Scope from top to bottom and edge to edge. Powered by Aura Sync, the entire color spectrum and a range of dynamic lighting effects are at your command for you to create a keyboard that's uniquely yours. The lighting is easily synced with the extensive Aura ecosystem to create a gaming environment that really shines.
