

AUCL2010BB

Astrum UCL20B Black 1.0m 3A 480Mbps Braided USB-C to Lightning Cable

Product Overview

Astrum UCL20B Black 1.0m Braided USB-C to Lightning Cable; 3A charging; USB 2.0; up to 480Mbps; braided nylon jacket; reinforced connectors; nickel-plated connectors; black; compatible Lightning devices

Specifications

About this product

The Astrum UCL20B AUCL2010BB is a 1.0m braided USB-C to Lightning cable designed for charging and syncing compatible Lightning devices. It supports up to 3A charging and USB 2.0 data transfer speeds of up to 480Mbps, with a durable braided nylon jacket and reinforced connectors for everyday use. Buy this Astrum USB-C to Lightning cable from our website for reliable charging and data transfer in South Africa.

Overview Summary

Astrum UCL20B USB-C to Lightning Cable is a 1.0m charge and sync cable with a USB-C male connector and Lightning male connector. It supports up to 3A charging and USB 2.0 data transfer speeds of up to 480Mbps, making it suitable for everyday charging and synchronisation of compatible Lightning devices.

The braided nylon cable jacket is designed for improved durability and resistance to tangling, while reinforced connectors help protect the cable during regular use. The cable can be used with compatible USB-C chargers, power banks, laptops and car chargers for convenient charging and data transfer at home, work or while travelling.

Performance tier: Everyday charging and data sync

Uses: iPhone charging, iPad charging, AirPods charging, data synchronisation, USB-C charger connection, power bank charging, car charging

Overview

The Astrum UCL20B is a braided USB-C to Lightning cable for iPhone 14 and earlier. It supports 3A fast charging, 480Mbps data sync, SR bend protection, and comes in a Black finish.

Description

ComX Computers

Product Specification Sheet

The Astrum UCL20B AUCL2010BB is a USB-C to Lightning charge and sync cable designed for compatible Apple Lightning devices. With a 1.0m cable length, it provides a practical connection between a USB-C charging source and a Lightning-equipped device.

The cable supports charging currents of up to 3A and USB 2.0 data transfer speeds of up to 480Mbps. This allows the cable to handle everyday charging and data synchronisation tasks when connected to compatible equipment.

A braided nylon outer jacket provides a durable cable construction designed for regular handling and improved resistance to tangling. Reinforced connectors provide additional protection at the connection points, which are commonly exposed to bending during everyday use.

The USB-C connector can be connected to compatible USB-C chargers, power banks, laptops and car chargers, while the Lightning connector is designed for compatible Lightning devices such as supported iPhone, iPad and AirPods models. The cable uses plug-and-play operation and does not require additional software.

For users who need a practical everyday charging and data cable for Lightning devices, the Astrum UCL20B combines a compact 1.0m length, braided construction, 3A charging support and USB 2.0 data transfer up to 480Mbps.

Features

The Astrum UCL20B combines charging and data synchronisation in a single USB-C to Lightning cable for compatible devices.

- USB-C male to Lightning male connector design
- Supports charging up to 3A
- USB 2.0 data transfer speeds up to 480Mbps
- 1.0m cable length for everyday use
- Braided nylon cable jacket
- Reinforced connectors for improved durability
- Tangle-resistant cable design
- Compatible with USB-C Power Delivery chargers
- Suitable for compatible iPhone, iPad and AirPods Lightning devices
- Plug-and-play operation with no additional software required
- Suitable for home, office, travel and in-car charging
- Black finish

USB-C Source, Lightning Device

The USB-C end connects to any USB-C charger, MacBook, power bank, or hub. The Lightning end connects to iPhone 14, 13, 12, 11, X, 8 series, AirPods with Lightning, and iPad models with Lightning.

3A Fast Charge + 480Mbps Sync

Faster than standard 1A Lightning cables. Charge and sync files simultaneously using USB 2.0 data transfer at up to 480Mbps.

Braided + SR Bend Protection

The braided jacket supports 5,000+ bends. SR bend protection at both ends helps protect the cable at its most stressed points. Built with tin copper EMI/RFI shielding. Black finish. 1.0m length.

Compatible Devices

iPhone 14, 13, 12, 11, X, XS, XR, SE 2nd generation, SE 3rd generation, 8 series, AirPods with Lightning, iPad models with Lightning, and iPad mini models with Lightning.

Not Compatible

iPhone 15 and later - these use USB-C, not Lightning.

What's in the Box

- 1 x Astrum UCL20B 1.0m USB-C to Lightning braided cable

Specifications

Product Code	AUCL2010BB
Standard	USB 2.0
Connector Type	USB-C to Lightning
Current	3A
Data Transfer Speed	480Mbps
Jacket Material	Braided
Shielding	EMI/RFI shield
Bend Protection	SR protection at both ends
Length	1.0m
Colour	Black

FAQ

What devices is the Astrum UCL20B USB-C to Lightning cable compatible with?

The cable is designed for compatible Lightning devices including supported iPhone, iPad and AirPods models. Device compatibility depends on the device having a Lightning connector.

Does the Astrum UCL20B support fast charging?

The cable supports charging currents of up to 3A and is compatible with USB-C Power Delivery chargers. Actual charging performance depends on the connected charger and device.

What data transfer speed does the UCL20B support?

The cable supports USB 2.0 data transfer speeds of up to 480Mbps for compatible devices.

What is the length of the Astrum UCL20B cable?

The cable is 1.0m long, providing a practical length for everyday charging and data synchronisation.

Is the Astrum UCL20B cable braided?

Yes. The cable has a braided nylon outer jacket designed to provide improved durability and resistance to tangling.

Can the cable be used with a USB-C power bank?

Yes. The USB-C connector can be connected to compatible USB-C power banks for charging compatible Lightning devices.

Can the cable be used for data synchronisation?

ComX Computers

Product Specification Sheet

Yes. The Astrum UCL20B supports charging and data synchronisation with USB 2.0 transfer speeds of up to 480Mbps.

What is the colour of the Astrum UCL20B?

The Astrum UCL20B AUCL2010BB has a black finish.

Is the Astrum UCL20B suitable for travel?

Yes. Its 1.0m length and braided cable construction make it suitable for everyday use at home, in the office, in a vehicle or while travelling.
