Adata UV100 Blue 8Gb USB 2.0 Slim Bevelled Flash Drive

Product Overview

Adata UV100 Blue 8Gb USB 2.0 Slim Bevelled Flash Drive

Specifications

Overview:

The latest slim profile USB Flash drive, the DashDrive™ UV100, expands the wide range of portable data storage options available.

Features:

On-the-Go Style
The drive incorporates the capless design that has proved to be such a successful and popular feature of ADATA Flash drives, eliminating the risk of cap loss. An integral strap hole makes the drive easy to carry on a lanyard or keychain. For the fashion-conscious, the drive boasts a diamond-cut bevel exterior, allowing owners to express their unique personal style. However, the key feature of the product may well be its highly competitive price point, which will make the UV100 an ideal option for those who use Flash drives on a daily basis and are looking for a highly portable backup drive.

Slimmer and Smaller
With a length of only 41mm and a thickness of just 5.8mm, it is an extremely compact and economical solution for those who view data portability as a day-today necessity.
