AVG-AV13-D1

AVG Anti-Virus 2013 DVD - 1 User + 1 Free

Specifications

Overview:

- AVG Award Winning AntiVirus &AVG Secure Search: Protection from continually evolving threats.
- Surf, AVG Secure Search and Use Facebook Safely: AVG alerts you to threats before you click.
- Stop Identity Thieves: Protects against identity threats targeting your PC.

Features:

Great easy to use protection everyone needs
Our job is to stop viruses before they even get to your PC. We check your files before you open them, your Facebook links before you click, your email before it gets to you and your websites before you visit them.

AntiVirus
Helps stop, remove, and prevent the spreading of viruses, worms or trojans.

AntiMalware (AVG Resident Shield)
Protects you from malware on your PC and helps stop anything that's infected.

AVG Anti-Rootkit
Detects and removes dangerous rootkits that hide malicious software that seeks to take control of your computer.

AVG Email Scanner
Detects infected or rogue inbound attachments so they can't damage your PC. Works as a plug-in for email applications including Microsoft Outlook 2010 or as a scanner for POP3, SMTP and IMAP accounts.

AVG Protective Cloud Technology
Identifies and prevents emerging threats "in the cloud" via automatic updates to your antivirus software.

AVG Community Protection Network
Instantly converts every new threat encountered by any member of our community into protection for everyone. It adds up to ever-better antivirus protection for the entire AVG community.

AVG LinkScanner Surf-Shield

Smart prevention technology that stops you hitting infected or criminal sites. Actively checks every web page just before you click and stops you if it detects anything suspicious.

AVG Social Networking Protection
Checks the links that get exchanged when you're on social networks such as Facebook®, Twitter® etc. to help keep you and your friends safe.

Advanced protection that allows you to share files safely
There are times when it's good to get things we're not expecting and times when it's not. We check files before you download and share them even when you're instant messaging to make sure they're safe.

You get: AVG Online Shield
Checks files before you download them to ensure they are safe, and protects you as you exchange files using MSN and Yahoo! and ICQ.

The basic tools you must have to control who is able to see and use what you do online
Your privacy is important. Whether it's your identity or knowing who is tracking your data and what they might do with it. Whichever one it is, we've got it covered.

AVG Do Not Track
Lets you identify which websites are collecting data on your online activities and gives you the choice whether to allow it. This is available if you take AVG Security Toolbar as part of your installation or as a separate plugin. Supports Internet Explorer, Mozilla Firefox and Google Chrome.

AVG Identity Protection
Not only keeps your personal information safe when you're busy online, but also stops criminals stealing personal data on your PC.

Anti-Spyware
Keep your identity safe from the Spyware and Adware that tracks personal information.

AVG WiFi Guard
Helps you avoid the rogue WiFi access points used by hackers by alerting you when your PC tries to access an unknown WiFi network.

Essential tools that keep your PC running smoothly… because antivirus should never slow you down.
We all worry that putting stuff on our PC affects performance. Our 'stuff' goes out of its way to make sure that it never slows you down.

AVG Turbo Scan
Dramatically shortens security-scanning times thanks to a smarter scanning sequence that follows the order in which files are saved to the hard drive.

Game Mode
Keeps scans and updates at bay whilst you play to avoid lags and freezes. Also safeguards your digital profile from hackers looking to steal and sell your game rewards.

AVG Smart Scanner
Only scans your PC when you're not using it. Drops to low priority mode as soon as you move your mouse or hit a key. To keep scan times to a minimum it ignores files it's already scanned and knows are safe.

Detects performance problems or opportunities which you can action via the super-easy interface

If we ever find anything that's a worry, we'll alert you so you can take the best action including our super easy one click fix. And because our interface is now even better, it's even easier to do.

AVG Advisor
Responds to performance issues with recommendations on how to speed your browsing. Alerts you to apps that take a lot of bandwidth and memory giving you the option of shutting them down.

Easy Interface
Our new improved interface is designed to make AVG 2013 the easiest possible protection - all part of our promise to give you great products that ask less of you. Fully compatible with Windows 8.

AVG Auto-Fix
Detects and alerts you to any security risk, providing a simple one-click Auto-Fix button that automatically fixes the problem and resets the system to the best protection mode.

AVG Auto-Updates
As we constantly innovate and evolve our protection technology, we'll make sure you're automatically updated to maintain top level defence levels.
