NearStream CCD30 Premium Ultra Low Latency 4K60 USB 3.1 Capture Card

Product Overview

NearStream CCD30 Premium Ultra Low Latency 4K60 USB 3.1 Capture Card for xbox, ps5, switch and DSLR camera, With 4K60 HDMI loop out, 4Kp60 usb 3.1 output and true HDR10 support. The NearStream CCD30 USB 3.1 capture card brings crystal-clear 4K60 HDR10 video capture with ultra-low latency to streamers, gamers, and creators. It offers plug-and-play setup, HDMI passthrough, analog audio input and broad system compatibility. Ideal for live streaming, gameplay recording and professional content production.

Specifications

Overview Summary

Performance tier:Premium

Uses:livestreaming, video recording, gaming capture, content creation

The NearStream CCD30 is a high-performance, USB 3.1 capture card designed for users who demand stunning visuals and uncompromised responsiveness. It captures true 4K at 60fps with HDR10 support, ensuring rich color depth and cinematic clarity for streamers, gamers, and creators.

With ultra-low latency and plug-and-play simplicity, the CCD30 enables real-time capture without lag. It includes HDMI loop-through, versatile codec support, and broad device compatibility-from next-gen consoles like PS5 and Xbox Series X/S to DSLR and PC sources.

Description

The NearStream CCD30 is engineered to deliver professional-grade video capture in a portable, user-friendly form. Its design prioritises performance with a compact metal housing that remains cool under extended use. Just plug in your HDMI source and connect via USB-C 3.1 to your host device-no setup hassles.

Whether you're streaming gameplay, recording interviews, or capturing DSLR footage, the CCD30 ensures vibrant clarity with HDR10 and crystal-clear audio. The ultra-low latency makes it ideal for competitive gaming and live production where every millisecond counts.

Features

4K HDMI capture card

This game capture card supports HDMI input and output resolution up to 4K@60fps, allowing you to capture your gameplay while still playing on your monitor or TV without any lag, ensuring an uninterrupted gaming experience. The external capture card is compatible with most HDMI source devices like PS5, PS4 Pro, Switch, Camera, DSLR, PC and more. Xbox Series X/S, Xbox One X, PS5, PS4 Pro, Switch.

True 4K 60FPS USB-C 3.1 Capture Card

The 4k capture card can broadcast live or record in stunning 4K at 60fps, ensuring flawless clarity and smoothness. Enjoy versatile format support, including MJPG (4K at 60fps), YUY2 (1440p at 50fps), NV12 (1440p at 60fps), and I420 (4K at 30fps). The USB-C 3.1 interface ensures fast, reliable data transfer for seamless video capture. Ideal for gamers, content creators, and professionals.

Support HDR Function

The HDMI video capture supports HDR10, providing enhanced color accuracy and contrast for more vibrant and lifelike video. This feature ensures a richer and more immersive viewing experience with expanded dynamic range, making every scene more detailed and realistic for both you and your audience.

Plug and Play & Ultra-low Latency

The gaming capture card requires no driver setup on Windows and Mac. Simply connect the CCD30 to your device for seamless streaming. Enjoy unparalleled synchronization between your broadcast and gameplay, thanks to ultra-low latency that ensures every moment is captured with precision.

Next-Gen Game Console Compatibility

The 4K video capture card delivers crystal-clear capture from your favorite consoles, like Xbox Series X/S, Xbox One X, PS5, PS4 Pro, Switch, and more, all on your PC. Stream to YouTube, Twitch, Facebook Gaming and more.

3.5mm Audio Interface

The 4k capture card for PC features a 3.5mm audio interface, allowing you to connect analog audio sources directly with a standard 3.5mm connector. Easily capture audio from microphones and headphones without needing additional converters or interfaces.

Specifications

Product Code	AW-CCD30
Power Supply	USB 3.1 Type-C DC5V 1A, USB video capture card
Operating System	Windows XP/7/8/10/11, MacOS, Linux, Android 5.0+, 4k capture card
Input Interface	HDMI (4K @60Hz, backward compatible), HDMI video capture, capture card for Xbox, capture card for switch
Loop-out Interface	HDMI (4K @60Hz, backward compatible), 4k capture card
Acquisition Interface	USB-C (1080P @60Hz, backward compatible), USB capture card
Video Format	RGB/YUV44/YUV422/YUV420, game capture
Audio Format	L-PCM, usb video capture card
Acquisition Format	YUV422/MJPEG, capture cards
Supported Resolutions	4K @60fps, 1440p @50/60fps, 1080p @60fps
HDR Support	HDR10, HDMI video capture
Audio Interface	3.5mm audio input
Min System Requirement	USB 3.1 interface and HDMI input
Gaming Consoles	Xbox Series X/S, Xbox One X, PS5, PS4 Pro, Switch
Act as	4k capture card, xbox capture card, hdmi capture card, video capture card
