AW-VM33

NearStream VM33 Innovative 2K 10X Optical Zoom Wireless Streaming Camera

Product Overview

NearStream VM33 Innovative 2K 10X Optical Zoom Wireless Streaming Camera, Built-In 6400mah Battery, USB-C Output as Webcam, Free Multicam APP for both iOS/Android. The NearStream VM33 is a high-performance 2K streaming camera with hybrid zoom and 360-degree AI-enhanced audio. Its wireless design, long battery life, and app-based control make it perfect for live streaming, events, and remote video capture.

Specifications

Overview Summary

The AW-VM33 NearStream VM33 is a professional-grade 2K wireless streaming camera with 40x hybrid zoom and advanced audio features. Designed for vloggers, event streamers, educators, and content creators, it offers Full HD streaming, QHD recording, and seamless integration across all major platforms. Whether you are live broadcasting or filming high-quality video content, the VM33 delivers stable, sharp visuals with studio-quality sound.

With a built-in 6400mAh battery, multi-cam functionality, USB-C output, and app-based control, the VM33 allows you to create versatile and dynamic content from anywhere. Its intelligent AI-powered features and compact build make it the ideal streaming companion for portable and professional setups.

Performance tier: Advanced

Uses: Live streaming, multi-angle event capture, video production, vlogging, online broadcasting

Description

The NearStream VM33 brings professional-grade streaming to your fingertips with its powerful zoom lens, crystal-clear 2K imaging, and intelligent audio features. Designed for creators and streamers who require flexibility and performance, this camera integrates seamlessly into mobile or stationary setups and delivers sharp visuals even from long distances.

Its AI-powered microphones ensure distraction-free sound, while app-based controls make content creation intuitive and customizable. With wireless and Ethernet connectivity, multi-cam support, and long battery life, the VM33 is ready for live events, sports coverage, teaching, and much more. This is a powerful tool for those who take streaming seriously.

Features:

2K Crystal-Clear Imaging & 40X Hybrid Zoom
The VM33 Streaming Camera features an impressive 40X hybrid zoom (10x optical zoom and 4x digital zoom) to deliver exceptionally clear images from up to 100ft away. Equipped with a 1/2.8" CMOS Sensor, it ensures clarity even in low-light conditions. The VM33 supports Full-HD 1080P streaming and QHD 1440P recording, making it ideal for vloggers, streamers, and content creators seeking the best camera for streaming.

8-MEMS Microphone Array with AI Noise-Canceling
Capture 360degrees sound within a 16ft radius with this streaming video camera, featuring 8 built-in MEMS microphones and AI noise suppression. It ensures clear, distraction-free audio. The VM33 also supports external audio sources via its 3.5mm jack and background music through the NearStream App, making it a top choice for high-quality streaming from camera.

Multi-Cam Support
You can link up to three VM33 wireless streaming cameras to create efficient and high-quality streams or recording from multiple angles, especially suitable for the sports events such as baseball match. (NOTE: For multiple recording needs, you can insert a microSD card with storage capacity ranging from 32GB to 128GB (write speed 10MB/s, class: V10 or higher), formatted in FAT32.)

Easily Stream on Your Preferred Platform
With RTMP and RTSP support, streaming to platforms like YouTube, Facebook, and Twitch is seamless. The VM33 is compatible with iOS, Android, Mac, and Windows devices, giving you the flexibility to stream from anywhere with the best camera for streaming.

Intelligent App Control
Enhance your streaming experience with our free app, offering features like Picture in Picture, graphic overlays, audio mixing, auto-director, and NDI. It's an ideal live stream camera companion for content creators who want to produce high-quality streams with ease.

Wireless Webcam, Stream Anywhere
Stream on the go with Wi-Fi, 4G/5G mobile networks, or the L30 POE adapter. Fully charged in 4 hours, the VM33 streaming camera provides up to 8 hours of streaming or 12 hours on standby. Capture every moment of your event without the need for bulky equipment. This stream camera is perfect for live events and remote streaming.

What's in the Box

- VM33 streaming camera
- USB 2.0 Type-C data cable with A-C adapter
