AZ105S

Philips Az105s Silver CD Soundmachine Portable Radio

Product Overview

Philips Az105s Silver CD Soundmachine Portable Radio

Specifications

Overview:

You take pleasure in the simple things in life and delight in convenience. The compact and portable Philips CD soundmachine lets you indulge in the pleasures of enjoying your favourite music with the help of easy-to-use functions.

Features:

Play CD, CD-R and CD-RW
Philips is known for making products that are compatible with many discs available on the market. This audio system lets you enjoy music from CD, CD-R and CD-RW. CD-RW (CD-Rewritable Compatible) means that your audio system can play both CD-Recordable (CD-R) and CD-Rewritable (CD-RW) discs. CD-R discs are recordable once and can be played on any audio CD player while CD-RW discs can be recorded and rewritten multiple times and can only be played back on compatible audio CD players.

CD Shuffle/Repeat for personalised music enjoyment
The "Shuffle/Repeat" function helps you to get rid of the boredom of hearing your music played in the same order all the time. After loading your favourite songs to the player, all you have to do is to select one of the modes - "Shuffle" or "Repeat" for your tunes to be played in different modes order. Enjoy the different and unique music experience every time you hook up to your player.

Dynamic Bass Boost for deep and dramatic sound
Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Audio-in for easy portable music playback
Make one easy connection and enjoy all your music from portable devices and computers. Simply plug your device into the AUDIO-IN (3.5 mm) port on your Philips set. With computers, the connection is typically made from the headset output. Once

linked, you can enjoy your entire music collection directly, on a set of superior speakers. Philips simply delivers better sound.

20-track CD programmable
The CD programmable playback feature allows you to enjoy your favourite tracks in the order you want.
