

BATHOLD

Microworld CR2032 Battery holder

Product Overview

Microworld CR2032 Battery holder, Designed for 3V Coin Cell Batteries, Compact PCB mounting Design, Secure electrical contact points, Easy soldering connection points

Specifications

Overview Summary:

Enhance your electronic projects with the reliable Microworld CR2032 battery holder, specifically designed to provide stable power for a wide range of devices. Available now for customers across South Africa, this high-quality component ensures secure connections and long-lasting performance for your coin cell batteries.

Whether you are repairing existing equipment or building new circuits, this durable holder is an essential addition to your toolkit. Secure your order today by clicking buy now to ensure you have the necessary parts ready for your next project without delay.

Performance tier:Standard

Uses:Electronics repair, circuit boards, digital devices, remote controls, backup power systems

Overview:

Searching for a reliable power solution for your compact electronics? The Microworld CR2032 battery holder, identified by part number BATHOLD, offers the perfect balance of durability and convenience. Designed to securely house standard 20mm coin cell batteries, this component ensures stable electrical contact without the risk of accidental dislodgement. It is an essential accessory for DIY projects, remote controls, medical devices, and various other applications where a consistent power supply is critical.

This compact holder simplifies battery replacement while maintaining a sleek profile that fits seamlessly into tight enclosures. Its robust construction protects the battery from vibration and movement, making it ideal for portable gadgets that experience regular handling or transport. Whether you are building a custom circuit board or replacing a worn-out component in an existing device, this holder provides the stability needed to keep your electronics running smoothly.

Description:

This product is a high-quality battery holder specifically engineered for CR2032 coin cells. It combines ease of installation with long-term reliability, ensuring that your electronic devices maintain power without interruption. The design prioritizes user safety and operational efficiency, making it a preferred choice for engineers and hobbyists alike.

Features:

Key Specifications

- Compatible with standard CR2032 3V coin cell batteries
- Compact design suitable for space-constrained projects
- Durable plastic construction resistant to wear and tear
- Secure snap-in mechanism prevents accidental battery loss
- Part number BATHOLD for easy inventory tracking

The integration of this holder into your project is straightforward, requiring minimal tools or technical expertise. Its ergonomic shape allows for quick access during maintenance or battery swaps, saving time and reducing frustration. Users appreciate the secure fit that keeps batteries in place even when devices are moved frequently.

What's in the box

- 1x Microworld CR2032 Battery Holder (Part Number: BATHOLD)

When selecting components for your electronics, choosing a holder that balances cost and performance is vital. The Microworld model stands out as a dependable option that meets industry standards for reliability. It serves as a foundational element in many electronic assemblies, ensuring that power delivery remains consistent over the lifespan of your device.

For those looking to upgrade or repair their gadgets, this battery holder provides a practical solution without compromising on quality. Its universal fit for CR2032 cells makes it a versatile addition to any electronics toolkit, supporting a wide range of applications from simple timers to complex sensor arrays.

FAQ

What type of battery does the Microworld CR2032 battery holder support?

The BATHOLD model is designed specifically to hold a single CR2032 coin cell battery.

Is this product compatible with standard electronic devices?

Yes, the Microworld CR2032 battery holder provides a reliable connection for applications requiring a CR2032 power source.

What is included in the package?

The product includes one Microworld BATHOLD battery holder unit manufactured by Microworld.

ComX Computers

Product Specification Sheet

Does this item come with batteries installed?

No, the holder is sold as an empty component and requires a separate CR2032 battery for operation.
