Specifications

Overview:

With a sophisticated all-around slim design, the latest MHL connection and BenQ's state-of-the-art visual optimization technologies, the all-new EW40 Series take your multimedia entertainment to a new level of fun and ease. Enjoy a cinema-class picture in the comfort of your own personal space for home entertainment or office work.

Features:

Transform Mobile Entertainment with MHL Connection
Connect your smart device to the new EW40 Series and indulge in the premium picture quality that is has to offer. The MHL connection ensures flawless streaming from any MHL-equipped smart device, allowing you to enlarge and optimize any content displayed on your smart device effortlessly. With this feature, you can browse websites, watch videos, play games and even go over various documents on a full 24" or 27" screen - without having to turn on your computer at all.

Heighten Your Movie Enjoyment with Cinema Mode
Enabled by BenQ's exclusive color engine technology, the Cinema Mode automatically processes and fine-tunes video contents to perfection, so that a truly dynamic cinema experience is what you'll get.

Upscale Every Viewing Experience with Super Resolution
To give you an optimal online video watching experience, the EW40 Series simulates high-resolution images by boosting the pixel density of the original video source with the Super Resolution image enhancement feature.

Distraction-free Viewing with Smart Focus
Smart Focus allows you to pinpoint a window or area on the screen and make that the focal point. By concealing the rest of the visual content, you're able to focus on exactly what you aim to enjoy.

Flicker-free Backlight for Visual Pleasure
The Flicker-free technology eliminates flickering at all brightness levels and effectively reducing eye fatigue. Conventional LCD screens flicks 200 times per second. Your eyes may not see flickers, but can certainly feel them. Free your eyes from flickers by switching to Flicker-free Monitors and let your eyes do less work.

Low Blue Light Mode
Every Monitor produces a strain of blue spectrum light that is one of the critical causes of eye damage, eye strain, headaches and sleeping disorders. BenQ's unique Low Blue Light technology is designed to deal with the everyday problem of blue light exposure and allows a healthier time spent in front of your computer. Switch to one of the four preset Low Blue Light Modes from OSD hot key (Multimedia - 30% reduction, Web-surfing - 50% reduction, Office - 60% reduction, Reading - 70% reduction), and reward your eyes without having to lose the visual enjoyment.

Win 8 compatible
The EW Series have passed Windows 8 certification and is fully compatible with Windows 8 color systems. Plug in the EW Series Monitor to your computer, and Windows 8 will recognize it instantly, making setup and connection effortless.
