

BFA-MAG-12BK6

BitFenix Alchemy Blue LED Strip - 12cm Length

Product Overview

BitFenix Alchemy Blue LED Strip - 12cm Length, 6x LEDs, Magnetic, Molex Power, Chainable Power Connector, High Grade Adhesive (Non Magnetic Surfaces)

Specifications

Overview:

Part of the BitFenix Alchemy Premium Modding Series, Alchemy LED Strips are the ideal choice when modding inspiration strikes. These precision manufactured LED Strips come with BitFenix TriBright™ LED Technology for the absolute brightest LED strips available. Alchemy LED Strips come in a multitude of lengths and colors, enabling you to bring your modding vision to light.

Features:

Powerful Magnets

Tiny yet powerful black magnets embedded into the flexible high transparency Polyurethane substrate allow you to attach Alchemy 2.0 magnetic LED strips to any steel part of your case, radiator shrouds, power supply cover and more. They hold your LED strips in place the first time, every time, and they won't come off after a while. Easily re-locate them within your system for optimum lighting, or re-use them in different builds!

TriBright™

TriBright™ LEDs offer far better color tones, glow brighter, last longer, and scatter light more evenly than conventional LED strips, and as a result cast very soft diffused shadows instead of hard shadows cast by narrow angle single LED modules. TriBright™ LEDs offer unmatched bright white light that illuminate all colors without giving your system a blue, yellow or even slight green tint like most cheap no-name LED strips.

NVIDIA GREEN

Based on popular demand we fine tuned the wavelength of our green LED strips to match the neon green used on high-end VGAs, to let you create nice matching overall build showing off your latest and greatest graphics cards.

Purple

Based on popular demand we added a brand new color to our LED strip line-up, PURPLE! Whether you're tired of the same old red green and blue, or you're simply a fan of purple, or maybe want to build a system for your wife or daughter, you can

easily give your build a nice and strong purple glow.

Unmatched cable system

To enable the best possible cable routing and management possible, not only the LED strips themselves, but even the power adapters are daisy chain-able. We increased the length of the power adapter to 50cm for comfortable routing even in massive cases like our Shinobi XL and Colossus, and even the power cable itself has a magnet embedded in its head, so it wont pull down the LED strip.

Specifications

Product Code	BFA-MAG-12BK6
Available LED Colors	Blue
Magnets	Black Sintered NdFeB Permanent Magnets
LED Type	5050 TriBright SMD
Lumen	60
Color Rendering Index	~80
Angle	120 degrees
Voltage (v)	12
Flex PCB Quality	1oz copper
Protective cover	High-Clarity Polyurethane
Power Cable Length	50cm - 20" - daisy-chainable
LED Strip Width	10mm - 0.4"
LED Strip Thickness	2mm - 0.08"
LEDs	6
Magnets	3
Wattage (W)	1.44
