Xiaomi Mijia Compact Portable Electric Air Compressor

Product Overview

Xiaomi Mijia Compact Portable Electric Air compressor, 150psi (10.3 Bar) Max Pressure, Auto Shut-Off, 2000mAh Battery capacity, Approx. 1.5 hours charging time, Lighting mode, Compact Handheld Design

Specifications

Overview Summary:

Keep your tyres, bicycles, sports balls, and inflatables properly inflated with the Xiaomi Mijia Compact Portable Electric Air Compressor. Designed for convenience and accuracy, this compact handheld inflator delivers up to 150psi pressure with digital precision and automatic shut-off for reliable inflation every time. Its lightweight design and built-in LED light make it ideal for roadside emergencies, travel, and everyday use.

The rechargeable 2000mAh battery offers dependable cordless performance with fast charging in approximately 1.5 hours. Whether you need a quick tyre top-up before a trip or portable inflation at home, this Xiaomi air compressor is a practical solution for South African drivers and active households. Buy now and enjoy portable inflation power wherever you go.

Performance tier:Mid-range portable inflator

Uses:Car tyre inflation, bicycle tyre inflation, motorcycle tyres, sports balls, inflatable toys, emergency roadside tyre pressure maintenance

Overview:

Inflate tyres, balls, and everyday essentials with controlled accuracy and minimal effort. The Xiaomi Mijia Compact Portable Electric Air Compressor is built for practical, on-the-go use, combining precision pressure control with a compact, travel-friendly form. Whether you are dealing with a low tyre before a commute or preparing sports gear, it delivers consistent, reliable performance without the hassle of manual pumps or guesswork.

Description:

A compact handheld air compressor designed for convenience and accuracy, this Xiaomi Mijia unit delivers up to 150psi pressure with intelligent auto shut-off to prevent over-inflation. Powered by a 2000mAh battery and fully rechargeable in around 1.5 hours, it is suitable for car tyres, bicycles, sports equipment, and inflatables. Its lightweight build, integrated LED light, and digital pressure control make it a practical solution for daily use, emergencies, and travel readiness.

Features:

Precision Inflation Made Simple

Accurate pressure management is central to this device. The built-in digital system allows you to set your desired pressure level, while the compressor handles the rest. Once the target is reached, inflation stops automatically, reducing the risk of damage and ensuring consistent results every time.

With a pressure capacity reaching 150psi (10.3 bar), it accommodates a wide range of use cases, from vehicle tyres to smaller inflatables. This removes the need for multiple tools, consolidating functionality into one compact unit.

Portable Power for Everyday Use

Designed to fit seamlessly into daily life, the compact and lightweight structure makes it easy to store in a car, backpack, or drawer. At roughly 240g, it adds negligible bulk while remaining ready for immediate use.

The integrated 2000mAh battery supports multiple inflation tasks on a single charge, making it suitable for both planned use and unexpected situations. Recharging is efficient, taking approximately 1.5 hours to return to full capacity.

Built for Real-World Conditions

This handheld compressor operates reliably across a wide temperature range, from -10 C to 45 C. Whether used during early

morning starts or warmer daytime conditions, it maintains stable performance.

An integrated LED light improves visibility in low-light environments, adding practical value during roadside emergencies or nighttime use. Combined with a durable construction and intuitive interface, the unit is accessible to users of varying experience levels.

Key Highlights

- Maximum pressure of 150psi (10.3 bar) supports multiple inflation needs
- Automatic shut-off prevents over-inflation and ensures accuracy
- Fast recharge time of approximately 1.5 hours
- Built-in LED light for low-light or emergency use
- Compact handheld design ideal for travel and storage

Technical Details

- Type: Portable electric air compressor
- Pressure range: 0.2 to 10.3 bar (3 to 150 psi)
- Battery capacity: 2000mAh (7.2 Wh)
- Charging input: 5V 2A
- Operating temperature: -10 C to 45 C
- Dimensions: approx. 6 x 4 x 9 cm
- Weight: approx. 240g

What You Get

- Xiaomi Mijia compact portable electric air compressor
- High-pressure air hose
- USB charging cable
- Multi-purpose adapter
- User manual

Designed for Practical Convenience

This air compressor is positioned as a dependable tool for routine maintenance and unexpected needs. Its combination of portability, digital precision, and ease of use makes it suitable for drivers, cyclists, and active households alike.
