Specifications

Overview Summary:

Keep your floors spotless with the Xiaomi Mijia Truclean 5 Pro Wet Dry Vacuum, now available for purchase at our South African store. This advanced cordless cleaner combines powerful 26,000 Pa suction with high-temperature steam sanitisation up to 160degrees C, ensuring a hygienic clean without harsh chemicals. Its intelligent anti-hair-tangle roller and automatic self-cleaning base make maintenance effortless, perfect for busy households dealing with spills and debris.

Designed for versatility, the Truclean 5 Pro features four operating modes including Standard, Steam, Absorption, and Power to tackle any mess from crumbs to ground-in grime. With a runtime of up to 40 minutes and a 180degrees tilt angle for reaching under furniture, this vacuum delivers thorough cleaning across all hard floor surfaces. Secure your home's cleanliness today by buying now.

Performance tier:High

Uses:Wet mopping, dry vacuuming, steam sanitising, pet hair removal, deep grime extraction

Overview:

The Xiaomi Mijia Truclean 5 Pro Wet Dry Vacuum transforms floor care by combining powerful suction with intelligent steam sanitisation. Designed for modern households, this cordless device effortlessly handles dry debris, wet spills, and ground-in grime in a single pass. With a maximum suction of 26000pa and four dedicated operating modes, it adapts to any cleaning challenge while the self-cleaning base ensures the machine is ready for its next use without manual intervention.

Description:

The Xiaomi Mijia Truclean 5 Pro (Part Number BHR098KEU) delivers a complete floor care solution that eliminates the need for multiple cleaning tools. It features advanced steam sanitisation reaching up to 160degrees C, an anti-hair-tangle roller brush system, and a fully automated base that washes and dries the roller with hot water. Users benefit from extended runtime of up to 40 minutes in absorption mode, making it ideal for cleaning large areas without interruption.

Features:

Effortless Deep Cleaning Across All Surfaces

Say goodbye to swapping between different devices for every mess. This versatile vacuum is engineered to tackle everything from dry crumbs to wet spills on hard floors with exceptional ease. The inclusion of four distinct operating modes allows you to tailor the cleaning intensity specifically to the task at hand, ensuring thorough results without wasting energy or time.

The device excels in steam mode, delivering heat up to 160degrees C to sanitise your floors effectively without relying on harsh chemicals. This makes it a safe and hygienic choice for homes with children or pets. Additionally, the intelligent two-way movement assistance ensures smooth manoeuvring, while the 180degrees device tilt angle allows you to reach under low furniture and into tight spaces that standard vacuums often miss.

Smart Brush Technology That Prevents Tangles

Hair wrap is a common frustration with traditional vacuum rollers, but the Truclean 5 Pro solves this with a dedicated anti-hair-tangling system. The roller brush incorporates comb teeth that actively prevent hair from building up around the cylinder, maintaining peak performance with minimal manual intervention. This design ensures consistent suction power and extends the lifespan of the cleaning head.

Maintenance has been reimaged to be virtually hands-free. Upon returning the unit to its cleaning base, the system automatically charges the battery, washes the roller brush with hot water at up to 100degrees C, and dries it completely. With a clean water tank capacity of at least one litre and a 700 ml dirty water tank, you can cover significant floor area before needing to refill or empty the containers.

Key Performance Highlights

- Achieve powerful deep cleaning with up to 26000 Pa suction across four versatile operating modes including Standard, Steam, Absorption, and Power.
- Enjoy steam cleaning at temperatures reaching up to 160degrees C for chemical-free sanitisation of hard floors.
- Experience tangle-free performance thanks to a roller brush featuring comb teeth and an anti-hair-tangling system.
- Benefit from effortless maintenance with hot water self-cleaning and automatic roller drying on the included base station.
- Clean freely for up to 40 minutes in absorption mode or 38 minutes in standard mode on a single charge.
- Operate quietly during the drying cycle at just 45 dB(A) to avoid disturbing your household.

FAQ

What cleaning modes are available on the Xiaomi Mijia Truclean 5 Pro?

The vacuum features four dedicated operating modes: Standard, Steam, Absorption, and Power, allowing you to adjust suction intensity up to 26,000 Pa for different tasks.

Does this device handle hair well without tangling?

Yes, it is equipped with a roller brush system featuring an anti-hair-tangling mechanism and comb teeth designed to actively prevent hair from wrapping around the roller.

How long does the battery last and how long does charging take?

You can expect up to 40 minutes of runtime in absorption mode or 38 minutes in standard mode, with a full charge time of approximately 5 hours required for the battery.

Does the cleaning base wash and dry the roller automatically?

Yes, after use you can return the vacuum to its base where it will automatically wash the roller with hot water up to 100degrees C and perform a quiet drying cycle at 45 dB(A).

Is steam cleaning included for sanitising floors without chemicals?

Absolutely, the device offers a Steam mode that delivers heat up to 160degrees C to sanitise hard floor surfaces effectively without the need for harsh cleaning agents.
