

BHR5154GL

Xiaomi Mi Window and Door Sensor 2

Product Overview

Xiaomi Mi Window and Door Sensor 2

Specifications

Features:

Event history, monitor home access while away

Magnetic induction sensor determines open or closed status. After connecting to Bluetooth Gateway, view the device status from your smartphone anytime, anywhere.

New light sensor Detects lighting and connects to more scenes

When the light sensor detects that ambient lighting is dim, the sensor connects with a smart light and initiates the night-time entry light scene*.

Instant alerts whenever a door/window opens or closes unexpectedly*, for greater peace of mind when baby is on the move

Attaches to anything that opens or closes. Set alerts for unexpected openings, or doors that have been left open for a certain time.

Use the Mi Home/Xiaomi Home app to access automated event history

Connects to other smart devices in your home via the Mi Home/Xiaomi Home app. For example, whenever your pet gate is opened, a smart camera can automatically record the event, upload it to the cloud and send an alert to your smartphone.

More creative, more fun

Compact body, strongly adheres to anything that opens or closes in the home. Turns traditional installations into smart home devices.

Bluetooth connectivityConnects to products with built-in Bluetooth Gateway functionality

The Mi Door and Window Sensor 2 connects to your smartphone via Bluetooth so you can view its status. It also connects to products with built-in Bluetooth gateway functionality so you can remotely view status, receive opening and closing alerts and link to other smart products.

Specifications:

ComX Computers
