Xiaomi Vacuum Cleaner G11 Filter

Product Overview

Xiaomi Vacuum Cleaner G11 Filter

Specifications

Overview:

The Xiaomi Vacuum Cleaner G11 Filter is a great choice for keeping your home clean and dust-free. It is designed to fit the Xiaomi Vacuum Cleaner G11 and is made from high-quality materials for long-lasting performance. The filter is easy to install and remove, and it captures dust, dirt, and other particles to keep your home clean and healthy. It can effectively filter dust as small as 0.3um, and with the multiple filter devices of the vacuum cleaner, the filter effect of the host is as high as 99.5%, purifying your air and keeping you healthier.

The filter can prevent dust from entering the fan. The built-in Hall sensor in the body can monitor the presence of the filter, the vacuum cleaner will not start without a filter installed, so as to effectively avoid damage to the fan. The high-density filter material is mechanically folded to form 90 folded peaks, which greatly increases the filtering area compared with the flat structure, and reduces wind resistance, thereby improving the filtering capacity and ensuring the filtration effectiveness. It is also reusable and easy to clean, simply remove the filter from the filter assembly and wash separately.

Features:

- Powerful filter collects the smallest dust particles
- High-density filter material
- Easy to install
- Easy to clean
- Compact design
- Designed for Xiaomi G11 Vacuum Cleaner
