Xiaomi Redmi Watch 3 Smart Watch

Product Overview

Xiaomi Redmi Watch 3 Smart Watch

Specifications

Overview:

Take one more step with the Xiaomi Redmi Watch 3, it features a 1.75-inch large ultra-clear screen allowing you to see everything clearly even under strong light. The 1.75'' AMOLED screen has a screen-to-body ratio of up to 70% and is large enough for you to see information such as message reminders and sports data on one screen. With many great features including 121 fitness modes, Bluetooth calling, 5ATM water resistance, and up to 12 days of battery life, the Redmi Watch 3 has everything you need to keep track of your fitness levels and routines.

Thanks to its peak brightness of 600nit, you can easily read the information even under strong light. The super-large screen makes the application space in the watch larger, and the interface adjustment and application layout are more flexible and easier to operate. The 60Hz high refresh rate Retina-level display offers you a precision display that is delicate and smoother on the eyes. The screen quality has been greatly upgraded, with a 390 x 450 ultra-high-definition resolution. 60Hz high refresh rate, 341 PPI, smooth and silky touch, fine and clear picture quality.

The Redmi Watch 3 comes with 121 fitness modes to choose from which allow you to record various data to help you monitor your performance during training. The app has over 200 built-in personalized dials to choose from, including sports, simplicity, technology and machinery, with hundreds of styles that can be changed as you see fit. It is equipped with professional motion algorithms to accurately monitor heart rate, calorie consumption, and exercise duration, making exercise more scientific and efficient. There are 10 built-in running courses with different intensities for you to choose from. You can choose the difficulty according to your own situation and preferences.

The fully upgraded heart rate algorithm can capture signals more sensitively, continuously and accurately track your heart rate changes, and protect your heart rate health around the clock. The Redmi Watch 3 has a built-in independent high-end GNSS chip, allowing for fast positioning speed and high precision. It also features support for the world's 5 major satellite positioning systems for precise positioning, so that every step can be traced.

The side button is very handy and allows you to easily answer mobile calls with one press on the side, in case of emergency and danger, press the side button three times in a row to quickly call an emergency contact. Through scientific and rigorous sleep monitoring technology, real-time recording of sleep states in different stages such as deep sleep, light sleep, REM rapid

eye movement, etc., to help improve sleep habits, so as to achieve a more "deep" sleep quality.

Battery life optimization algorithm, with low-power chips, fully charged, can be used for 12 days. Its portable magnetic charging base makes it very easy to get fully charged, just simply touch and charge. The all-soft rubber material and soft buckle make it much more comfortable to wear. Continuing the lightweight design of the Redmi Watch series, the watch is as light as 37g, making it lighter and more comfortable on the wrist. With a 5ATM waterproof level, it can also be worn when swimming or surfing.

Features:

- 1.75" AMOLED display
- 121 fitness modes
- SpO2 measurement and 24-hour heart rate tracking
- Bluetooth calling
- Multi-system standalone GPS
- 5ATM water resistance
- Up to 12 days of battery life
