Specifications

About this product

The Lumi SB-30 Heavy-duty Adjustable Speaker Wall Mount is a strong steel speaker bracket designed for satellite speakers with four threaded inserts and weighing up to 10kg. With adjustable tilt and swivel positioning, this speaker wall mount helps direct sound where it is needed while keeping speakers securely mounted and close to the wall. Buy now from our website for a practical speaker mounting solution in South Africa.

Overview Summary

Lumi SB-30 Heavy-duty Adjustable Speaker Wall Mount provides a secure and adjustable mounting solution for compatible satellite speakers. The bracket uses a solid steel construction with an ABS cover and supports speakers weighing up to 10kg.

The SB-30 provides 20 degrees of upward or downward tilt and a 120 degree swivel range, allowing the speaker position to be adjusted for improved sound direction. The slide-in speaker mounting plate also helps make speaker installation and removal more convenient.

Performance tier: Heavy-duty

Uses: Satellite speaker mounting, home audio systems, surround sound speakers, entertainment rooms, wall-mounted speaker installations

Overview

The SB-30 is a heavy duty wall mount for satellite speakers with four threaded inserts weighing up to 10kg/22lbs. Constructed with solid steel and decorated with ABS cover, it presents an elegant look especially when installed at home. Each bracket can tilt 20degrees up/down and swivel 60degrees left/right to deliver ideal sound conditions. The bracket can be easily installed with slide-in speaker mounting plate and it puts the speakers 115mm from the wall when fully stretched to give large space for installation. Both mounting on concrete wall and on single stud wall available.

Description

The Lumi SB-30 Heavy-duty Adjustable Speaker Wall Mount is designed to securely position compatible satellite speakers on a wall. It is suitable for speakers with four threaded inserts and supports a maximum speaker weight of 10kg.

The bracket is constructed from steel with an ABS plastic cover and features a powder-coated fine texture black finish. This combination provides a durable mounting structure while giving the installed bracket a clean appearance suitable for home audio environments.

Speaker positioning can be adjusted using the bracket's tilt and swivel movement. The SB-30 provides a tilt range of -20 degrees to +20 degrees and a total swivel range of 120 degrees. These adjustment options allow compatible speakers to be directed toward the preferred listening area.

The slide-in speaker mounting plate is designed to simplify attachment and removal of the speaker. When fully extended, the bracket provides a profile of 115mm from the wall, creating additional space for speaker installation. The SB-30 can be installed on a single stud according to the available product specifications.

Features

The SB-30 combines heavy-duty construction with adjustable positioning for practical wall-mounted satellite speaker installations.

- Supports compatible satellite speakers weighing up to 10kg
- Designed for speakers with four threaded inserts

Pivots	No
Tilt Range	-20degrees~+20degrees

Swivel Range	120degrees
Screen Rotation	No
Profile	115mm (4.5")
Anti-theft	No
Cable Management	No
Height Range	No
Glass Thickness(Top-Bottom)	Thickness of wall panel=2.0mm, thickness of panle=2.0mm (Thickness of wall panel=0.079", thickness of panle=0.079")

FAQ

What speakers are compatible with the Lumi SB-30?

The SB-30 is designed for satellite speakers with four threaded inserts and a maximum weight of 10kg.

How much weight can the Lumi SB-30 speaker mount support?

The SB-30 supports a maximum speaker weight of 10kg.

Can the Lumi SB-30 speaker bracket be adjusted?

Yes. The bracket provides -20 degrees to +20 degrees of tilt adjustment and a total 120 degree swivel range.

What material is the Lumi SB-30 made from?

The SB-30 uses steel construction with an ABS plastic cover and a powder-coated fine texture black finish.

How far does the speaker sit from the wall?

The SB-30 has a 115mm profile and places the speaker up to 115mm from the wall when fully extended.

Where can the Lumi SB-30 be installed?

The listed installation method is single stud mounting. The product information also states that the mount can be used for concrete wall installations.

Is the Lumi SB-30 suitable for home surround sound systems?

Yes. Its satellite speaker design and adjustable tilt and swivel positioning make it suitable for compatible home audio and surround sound speaker installations.
