Specifications

About this product

The Lumi SB-39 Universal Sound Bar Speaker Bracket is a steel TV-attached mounting solution for positioning a compatible soundbar above or below a 32 inch to 70 inch TV. It supports soundbars up to 15 kg and is VESA compatible with mounting patterns from 200 x 100 to 600 x 400. The universal design is suitable for many soundbars, including most SONOS, SONY and VIZIO models. Buy now from our site for a practical, clean soundbar mounting solution in South Africa.

Overview Summary

Lumi SB-39 Universal Sound Bar Speaker Bracket provides a secure and practical way to attach a compatible soundbar directly to a TV or TV wall bracket. Its steel construction and powder-coated fine texture black finish provide a durable mounting solution for home entertainment installations.

The SB-39 supports soundbars weighing up to 15 kg and is designed for universal soundbar compatibility. It can be installed above or below the TV and is suitable for TV installations using VESA mounting patterns from 200 x 100 to 600 x 400.

Performance tier: Standard

Uses: TV soundbar mounting, home entertainment systems, living room audio, TV wall bracket installations, articulating TV mounts

Overview

The SB-39 is made from high quality steel to hold sound bars up to 15kg/33lbs. It is suitable for most SONOS, SONY & VIZIO soundbars, and, can be easily attached to TV wall brackets or TVs on the stands directly instead of mounting to wall and leaving ugly screw marks. It gives a clean and neat look with your sound bar sitting above or below the TV. The mount is ideal for hanging on a corner or on an articulating mount where the sound can face the same direction with the TV to make perfect auditory and visual experience. The sound bar brackets can be mounting with standard VESA 200X100 to 600X400.

Description

The Lumi SB-39 Universal Sound Bar Speaker Bracket is designed to attach a compatible soundbar to a TV or TV mounting system without requiring the soundbar to be separately mounted to the wall. This helps create a cleaner installation while keeping the soundbar positioned with the television.

Constructed from steel, the SB-39 has a fine texture black powder-coated finish and supports a maximum soundbar weight of 15 kg. The universal mounting design is suitable for compatible soundbars and is specifically listed by Lumi as suitable for most SONOS, SONY and VIZIO soundbars.

The bracket can be installed above or below compatible 32 inch to 70 inch TVs. Its VESA-compatible design supports mounting patterns from 200 x 100 to 600 x 400, making it suitable for a range of TV mounting configurations. It can also be useful with corner installations and articulating TV mounts where keeping the soundbar aligned with the TV is important.

Features

The SB-39 combines a universal design with a strong steel construction for straightforward TV-attached soundbar installation.

- Universal soundbar design: Designed for universal soundbar compatibility.
- 15 kg load capacity: Supports compatible soundbars weighing up to 15 kg.
- Steel construction: Provides a durable mounting structure for compatible soundbars.
- Powder-coated finish: Fine texture black powder coating provides the specified surface finish.
- VESA compatible: Supports VESA mounting patterns from 200 x 100 to 600 x 400.
- Above or below TV installation: Allows the soundbar to be positioned above or below a compatible TV.
- TV-attached installation: Can attach to compatible TV wall brackets or TVs on stands rather than requiring a separate wall mount.
- Suitable for selected soundbars: Compatible with most SONOS, SONY and VIZIO soundbars according to the manufacturer.
- Articulating mount suitability: Can be used with an articulating mount to help keep the soundbar facing in the same direction as the TV.
