Buy now from our website for a flexible mobile display solution.

Overview Summary

Lumi TTV04-46TW Telescopic Height Adjustable TV Cart is designed to provide a secure and flexible mounting platform for most 37" - 70" LED and LCD flat panel TVs. The cart supports displays weighing up to 50kg and is compatible with VESA mounting patterns from 200 x 200 up to 600 x 400.

The telescopic design provides adjustable TV positioning, while the screen can tilt from +5 degrees to -12 degrees and rotate from 0 degrees to +90 degrees. Heavy-duty casters provide mobility, while integrated cable management helps maintain a clean and organised installation.

Performance tier:Premium

Uses:Conference rooms, classrooms, training rooms, professional presentations, public displays, meeting rooms, digital signage

Overview

This single display TV cart with stylish, technical and functional design to provide solid presentation solution for most 37"-70" LED, LCD flat panel TVs up to 50kg/110lbs (each bracket). Its flat panel TV brackets vertically allow effortless height adjustment of max. height of 2069 mm to match different viewing needs anytime. +5degrees~-12degrees freely tilting allows easy angle adjustment and reduces glare from lights or windows to obtain the optimal viewing comfort. Solid base provides additional security by removing the possibility of tripped over and ensures reliable performance for years of use. Internal cable

management hides wires from view to keep a clutter-free appearance. Ideal for conferencing, public displays or other professional presentation.

Description

The Lumi TTV04-46TW is a premium telescopic height adjustable TV cart designed for single-display installations using most 37" - 70" LED and LCD flat panel TVs. Its aluminium, steel and plastic construction provides a durable platform for professional display applications, while the mobile caster base allows the display to be repositioned when required.

The TV mounting system supports VESA patterns including 200 x 200, 400 x 200, 300 x 300, 400 x 400 and 600 x 400. The TV mounting height can be adjusted, allowing the display position to be configured for different viewing environments. The screen also supports a tilt range of +5 degrees to -12 degrees and rotation from 0 degrees to +90 degrees for flexible viewing and presentation positioning.

The cart supports a TV weight of up to 50kg and includes a height adjustable shelf rated for up to 5kg. A camera rack is also provided with a 5kg weight capacity, making the system suitable for video conferencing and presentation environments. Internal cable management helps conceal cables and maintain a cleaner installation.

The 3 inch caster wheels provide mobile functionality, while the solid base is designed for stability. The cart has also undergone 10 degree slope testing and is strength tested to 4 times the specified requirement. With its combination of mobility, height adjustment, screen positioning and cable management, the TTV04-46TW is suited to professional display and presentation environments.
