Product Overview

Samsung Galaxy Watch 4 Classic 42mm LTE / Silver, Embedded-SIM, GPS, Glonass, Beidou, Galileo, 802.11a/b/g/n 2.4+5GHz Wi-Fi, NFC, Bluetooth V5.0, Wear OS powered by Samsung, Super AMOLED 1.2" 396x396 display, 1.18GHz Dual-Core CPU, 1.5 GB RAM size, 16GB ROM size, Accelerometer, Barometer, Gyro sensor, Geomagnetic sensor, Light sensor, Optical heart rate sensor, Electrical heart sensor, Bioelectrical impedance analysis sensor, Hall sensor

Specifications

Overview:

Galaxy Watch4 Classic LTE (42mm)

SM-R885FZSAXSP

- Classic and premium design with rotating bezel
- Measure blood pressure and ECG with the

Features:

The watch that knows you best

Most of us want to know more about ourselves, so we can be the best version of ourselves. That's why we engineered the all-new Galaxy Watch4 Classic to be the companion to your journey towards a healthier you.

DESIGN

A classic thats truly timeless

DESIGN

This rotating bezel turns more than heads

Some looks are timeless, like the Galaxy Watch4 Classics rotating bezel and vivid screen. The refined design brings sophistication to your wrist and its high-end stainless steel materials express its powerful and intuitive functionality.

BAND

Strap in and start moving

ComX Computers

Product Specification Sheet

Stay comfortable all day long with the Ridge Sports Band. Its fluoroelastomer material keeps the band durable and sweat-resistant while maintaining a firm fit on your wrist to suit your active lifestyle.

WATCH FACE

A new day. A new watch face

A silver Galaxy Watch4 Classic device with a black band and its various watch face screens can be seen.

Choose between analog or digital watch faces with a variety of backgrounds, fonts, and colors to match your tastes, the weather, or occasion. Spice up your character watch faces with AR Emojis to express your style, while animated graphics show what you're up to, like running or listening to music.

FITNESS

Healthy starts here

BODY COMPOSITION

Dont just listen to your body. Know it

Track your fitness progress with our first smartwatch that conveniently measures body composition. Get to know your body fat percentage, skeletal muscle, body water and more to achieve your goals. The Samsung BioActive Sensor and our fastest chip brings the biggest innovation to Galaxy Watch yet.

Get a BIA measurement using just two fingers in 15 seconds. Anytime, anywhere.

The new Samsung BioActive Sensor captures your body composition in real time to inform you as you manage your health goals.

DAILY ACTIVITY & FITNESS TRAINING

Name a workout. It can track it

Track your activities and fitness scores on your watch and phone. Count steps, check calories, and stay on the grid with GPS. Galaxy Watch4 Classic detects physical activity to track your routines and supports more than 90 exercises for a more accurate report of your workouts.

GROUP CHALLENGE

Your workout buddies have your back

The front of a Galaxy Watch4 Classic with a green band is shown, and its watch face displays "3rd place" in a walking Group Challenge with friends. Around the watch are diverse people cropped in a circle. There are text bubbles on the top left and bottom right, each pointing to its speaker.

Enjoy every step you take with your friends and family with the Galaxy Watch4 Classic. Track your steps and compete with friends in a fun competition through a live message board. Challenges come with commemorative badges and a point system to make exercise fun, motivating and socially rewarding.

HEALTH

A watch that's watching out for you

BLOOD PRESSURE & ECG

All the data your heart desires

Meet the Samsung BioActive Sensor that measures ECG and blood pressure in real time. After initial calibration, the sensors

quickly check your blood pressure. You can also check abnormal heart rate and rhythm through ECG and send data straight to your phone to be easily shared.

- Blood PressureMeasure Blood Pressure using an Optical Heart Rate Sensor known as the PPG Sensor.
- ECGMeasure ECG using an Electrical Heart Sensor.

ADVANCED SLEEP

The most holistic sleep analysis on Galaxy watch

A silver Galaxy Watch4 Classic device is shown with a silver band tied round and its watch face displaying the sleep tracking feature.

The sleep tracker detects and holistically analyses your sleep stages while you rest. Improved measuring options let you check your blood oxygen levels and snoring patterns (not saying you do). Plus, get advanced insights from the National Sleep Foundation for better sleep quality and duration.

NEW OPERATING SYSTEM

Its a real team player

The sideways view of a black Galaxy Watch4 Classic device is displayed, and various app icons can be seen.

The first smartwatch with Wear OS Powered by Samsung, Galaxy Watch4 puts seamless access to your favourite apps on your wrist. You'll get a rich app selection in the massive library of health and fitness apps.
